

FS KKR Capital Corp.
Notice to Stockholders on
the Fund's Distribution
January 4, 2022

The Board of Directors of FS KKR Capital Corp. (“**FSK**” or the “**Fund**”) (CUSIP Number: 302635206) announced a fourth quarter dividend of \$0.62 per share paid on January 4, 2022, to stockholders of record as of December 15, 2021.

The Fund generated qualified interest income (“**QII**”) that may be exempt from U.S. withholding tax when distributed to non-U.S. stockholders during the quarter. The Fund is a regulated investment company (“**RIC**”). Under the Internal Revenue Code of 1986, as amended (the “**IRC**”), the Fund is permitted to designate the portion of its distributions that represent QII and short-term capital gains that are exempt from U.S. withholding tax when paid to non-U.S. stockholders.

The table below reports the components of the dividend, subject to change with final yearend information reporting.

Ordinary Income Dividends comprise the portion of the dividends from the Fund's ordinary net investment income and, if any, net short-term capital gains. The portion of Ordinary Income Dividends that the Fund reports as QII and, if any, short-term capital gain is eligible for exemption from U.S. withholding tax under IRC §871(k).

Capital Gain Distributions comprise distributions that arise from net long-term capital gains recognized by the Fund. If the Fund were to generate capital gains for distribution, this portion of distribution would generally qualify for exemption from U.S. withholding tax under Treas. Reg. §1.1441-3(c)(2). Capital gains distributions are determined based on how long the Fund held the investment and the type of investment. The Fund has capital loss carryovers resulting in no estimated capital gain distributions.

The information contained within this notice is an estimate based on the Fund's year-to-date activity and source of distributions. The tax classification of distributions for a tax year (the Fund's fiscal year) is dependent on the Fund's taxable income for the full year. As such, the Fund will confirm the tax classification of distributions after the end of the tax year. Therefore, the Fund may recharacterize its distributions for the tax year due to subsequent events. The Fund reports to stockholders annually the actual tax character of its distributions for U.S. federal income tax purposes on Internal Revenue Service Form 1099-DIV, as appropriate, which is issued after the end of the tax year. The Fund will include in its fiscal year 2021 SEC Form 10-K information regarding the components and tax treatment of all the Fund's distributions for the fiscal year. Each stockholder should consult their tax advisor regarding this distribution notice as each stockholder may have unique circumstance.

For U.S. federal income tax purposes, distributions that were reinvested through the Fund's Dividend Reinvestment Plan are treated as if they had been first received in cash and then the cash invested back in the Fund's shares. Non-U.S. stockholders who participated in the Dividend Reinvestment Plan should also refer to the table below for appropriate tax treatment of the dividends paid on or about January 4, 2022.
