

**FS KKR Capital Corp.**  
Tax Status of 2022 Distributions  
January 31, 2023

The final tax information on distributions paid by FS KKR Capital Corp. (“**FSK**”) CUSIP Number: 302635206 for 2022 is provided below.

For tax purposes, FSK is a regulated investment company (“**RIC**”) which is designating the distributions you received as a stockholder in 2022 in accordance with Subchapter M of the Internal Revenue Code of 1986, as amended (“**IRC**”), as set forth below.

**Ordinary Income Distributions:** These distributions are from FSK’s ordinary net investment income for the year. This type of dividend is reported on your tax return as ordinary income. Ordinary income distributions from a RIC do not qualify for the maximum 20% tax rate on dividend income from domestic corporations except to the extent the RIC received the income in the form of qualifying dividends from domestic corporations.

Total ordinary income distributions are reported on your Form 1099-DIV in Box 1a. The portion of the dividends reported in Box 1a that qualify for the qualified dividend income tax rate (maximum 20% for US individual taxpayers) are reported on your Form 1099-DIV, Box 1b.

Please note if you acquired or disposed of your FSK shares during 2022, qualified dividends reported in Box 1b of your 2022 Form 1099-DIV may not be eligible for qualified dividend income tax rate.

**Capital Gain Distributions:** Capital gain distributions arise from net long-term capital gains recognized by FSK during the year. Due to capital loss carryforwards, FSK did not report capital gain distributions.

**Interest-related Dividends:** FSK generated qualified interest income (“**QII**” under IRC section 871(k)), which may be exempt from U.S. withholding tax when distributed to non-U.S. stockholders.

**Excess Net Interest Income:** FSK generated excess net interest income under IRC section 163(j), which may be applicable for U.S. recipients of the Fund’s dividends.

**Qualified Business Income:** To the extent FSK received dividends from REITs, that portion of FSK’s dividend earned from REITs is qualified business income under IRC section 199A that may afford a lower effective tax rate on this portion of the Fund’s distributions.

Distributions reinvested through FSK’s Dividend Reinvestment Plan (“**DRP**”) are treated, for U.S. federal income tax purposes, as if the distributions were received and taxed as if received in cash.
