⁽a) Security may be an obligation of one or more entities affiliated with the named company.

⁽b) Certain variable rate securities in the Company's portfolio bear interest at a rate determined by a publicly disclosed base rate plus a basis point spread. As of June 30, 2025, the Euro Interbank Offered Rate, or EURIBOR or "E", was 1.94%, the Australian Bank Bill Swap Bid Rate, or BBSY or "B", was 3.65%, the Australian Bank Bill Swap Rate, or BBSW or "BW", was 3.60%, the Stockholm Interbank Offered Rate, or STIBOR or "SR", was 2.13%, the Sterling Overnight Index Average, or SONIA or "SA", was 4.10%, and the Secured Overnight Financing Rate, or SOFR or "SF", was 4.29%. PIK means paid-in-kind. PIK income accruals may be adjusted based on the performance of the underlying investment. Variable rate securities with no floor rate use the respective benchmark rate in all cases.

⁽c) Denominated in U.S. dollars unless otherwise noted.

⁽d) See Note 8 for additional information regarding the fair value of the Company's financial instruments.

⁽²⁾ Gross reductions include decreases in the cost basis of investments resulting from principal collections related to investment repayments or sales, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company out of this category into a different category.

⁽³⁾ Interest, PIK, Fee and Dividend and Other income presented for the full year ended December 31, 2024.

⁽⁴⁾ The Company held this investment as of December 31, 2023 but it was not deemed to be an "control" of the portfolio company as of December 31, 2023. Transfers in or out have been presented at amortized cost.

Note 1. Principal Business and Organization

FS KKR Capital Corp. (NYSE: FSK), or the Company, was incorporated under the general corporation laws of the State of Maryland on December 21, 2007 and formally commenced investment operations on January 2, 2009. The Company is an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, as amended, or the 1940 Act. In addition, the Company has elected to be treated for U.S. federal income tax purposes, and intends to qualify annually, as a regulated investment company, or RIC, as defined under Subchapter M of the Internal Revenue Code of 1986, as amended, or the Code. The Company has various whollyowned subsidiaries, including special-purpose financing subsidiaries and subsidiaries through which it holds interests in portfolio companies. The unaudited consolidated financial statements include both the Company's accounts and the accounts of its whollyowned subsidiaries as of June 30, 2025. All intercompany transactions have been eliminated in consolidation. Certain of the Company's consolidated subsidiaries are subject to U.S. federal and state income taxes.

The Company's investment objectives are to generate current income and, to a lesser extent, long-term capital appreciation. The Company's portfolio is comprised primarily of investments in senior secured loans and second lien secured loans of private middle-market U.S. companies and, to a lesser extent, subordinated loans and certain asset-based financing loans of private U.S. companies. In addition, a portion of the Company's portfolio may be comprised of equity and equity-related securities, corporate bonds, structured products, other debt securities and derivatives, including total return swaps and credit default swaps.

The Company is externally managed by FS/KKR Advisor, LLC, or the Adviser, pursuant to an investment advisory agreement, dated as of June 16, 2021, or the investment advisory agreement.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation: The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For a more complete discussion of significant accounting policies and certain other information, the Company's interim unaudited consolidated financial statements should be read in conjunction with its audited consolidated financial statements as of and for the year ended December 31, 2024 included in the Company's annual report on Form 10-K for the year ended December 31, 2024. Operating results for the six months ended June 30, 2025 are not necessarily indicative of the results that may be expected for the year ending December 31, 2025. The December 31, 2024 consolidated balance sheet and consolidated schedule of investments are derived from the Company's audited consolidated financial statements as of and for the year ended December 31, 2024. The Company is considered an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies under Financial Accounting Standards Board, or the FASB, Accounting Standards Codification Topic 946, Financial Services—Investment Companies, The Company has evaluated the impact of subsequent events through the date the consolidated financial statements were issued and filed with the U.S. Securities and Exchange Commission, or the SEC. The Company has concluded that there are no subsequent events that would require adjustment or disclosure in the consolidated financial statements.

Use of Estimates: The preparation of the unaudited consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Segment Reporting: In accordance with ASC Topic 280, Segment Reporting, or ASC 280, the Company has determined that it has a single operating and reporting segment. As a result, the Company's segment accounting policies are the same as described herein and the Company does not have any intra-segment sales and transfers of assets.

Capital Gains Incentive Fee: Pursuant to the terms of the investment advisory agreement, the incentive fee on capital gains is determined and payable in arrears as of the end of each calendar year (or upon termination of the investment advisory agreement). This fee equals 20.0% of the Company's incentive fee capital gains, which shall equal the realized capital gains of Corporate Capital Trust, Inc., or CCT, (as predecessor-by-merger to the Company), FS KKR Capital Corp. II, or FSKR, (as predecessor-by-merger to the Company) and the Company (without duplication) on a cumulative basis from inception, calculated as of the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation (without duplication) on a cumulative basis, less the aggregate amount of any capital gain incentive fees previously paid by CCT, FSKR and the Company. On a quarterly basis, the Company accrues for the capital gains incentive fee by calculating such fee as if it were due and payable as of the end of such period.

Note 2. Summary of Significant Accounting Policies (continued)

The Company includes unrealized gains in the calculation of the capital gains incentive fee expense and related accrued capital gains incentive fee. This accrual reflects the incentive fees that would be payable to the Adviser if the Company's entire portfolio was liquidated at its fair value as of the balance sheet date even though the Adviser is not entitled to an incentive fee with respect to unrealized gains unless and until such gains are actually realized.

Subordinated Income Incentive Fee: Pursuant to the terms of the investment advisory agreement, the Adviser may also be entitled to receive a subordinated incentive fee on income. The subordinated incentive fee on income under the investment advisory agreement, which is calculated and payable quarterly in arrears, equals 17.5% of the Company's "pre-incentive fee net investment income" for the immediately preceding quarter and is subject to a hurdle rate, expressed as a rate of return on the value of the Company's net assets, equal to 1.75% per quarter, or an annualized hurdle rate of 7.0%. As a result, the Adviser will not earn this incentive fee for any quarter until the Company's pre-incentive fee net investment income for such quarter exceeds the hurdle rate of 1.75%. Once the Company's pre-incentive fee net investment income in any quarter exceeds the hurdle rate, the Adviser will be entitled to a "catch-up" fee equal to the amount of the pre-incentive fee net investment income in excess of the hurdle rate, until the Company's pre-incentive fee net investment income in excess of the hurdle rate, the Adviser will be entitled to receive 17.5% of pre-incentive fee net investment income.

Revenue Recognition: Security transactions are accounted for on the trade date. The Company records interest income on an accrual basis to the extent that it expects to collect such amounts. The Company records dividend income on the ex-dividend date. Distributions received from limited liability company, or LLC, and limited partnership, or LP, investments are evaluated to determine if the distribution should be recorded as dividend income or a return of capital. The Company holds investments in certain preferred securities that accumulate paid-in-kind interest income, or PIK income, to be paid upon the redemption, liquidation or maturity of the underlying investment. Such PIK income is accumulated onto the principal balance of the respective security. The Company does not accrue as a receivable interest or dividends on loans and securities if it has reason to doubt its ability to collect such income. The Company's policy is to place investments on non-accrual status when there is reasonable doubt that interest income will be collected. The Company considers many factors relevant to an investment when placing it on or removing it from non-accrual status including, but not limited to, the delinquency status of the investment, economic and business conditions, the overall financial condition of the underlying investment, the value of the underlying collateral, bankruptcy status, if any, and any other facts or circumstances relevant to the investment. If there is reasonable doubt that the Company will receive any previously accrued interest, then the accrued interest will be written-off. When a PIK income-paying investment is placed on non-accrual status, the accrued, uncapitalized interest is generally reversed through PIK income. Payments received on non-accrual investments may be recognized as income or applied to principal depending upon the collectability of the remaining principal and interest. Non-accrual investments may be restored to accrual status when principal and interest become current and are likely to remain current based on the Company's judgment.

Loan origination fees, original issue discount and market discount are capitalized and the Company amortizes such amounts as interest income over the respective term of the loan or security. Upon the prepayment of a loan or security, any unamortized loan origination fees and original issue discount are recorded as interest income. Structuring and other non-recurring upfront fees are recorded as fee income when earned. The Company records prepayment premiums on loans and securities as fee income when it receives such amounts. For the six months ended June 30, 2025 and 2024, the Company recognized \$15 and \$21, respectively, in structuring fee revenue and included such revenue in the fee income line item on its consolidated statements of operations.

Derivative Instruments: The Company's derivative instruments include foreign currency forward contracts and interest rate swaps. The Company has designated certain interest rate swaps as hedging instruments in a qualifying fair value hedge accounting relationship, and as a result, the change in fair value of the hedging instruments and hedged items are recorded in and recognized as components of interest expense in the Company's consolidated statements of operations. The change in fair value of the interest rate swaps is offset by a change in the carrying value of the corresponding fixed rate debt.

For all other derivatives, the Company does not utilize hedge accounting and recognizes such derivative instruments as assets or liabilities at fair value in its consolidated financial statements. Changes in fair value of derivative contracts entered into by the Company which have not been designated as hedging instruments are recognized through the net change in unrealized appreciation (depreciation) on derivative instruments in the consolidated statements of operations. Realized gains and losses on the derivative instruments are included in net realized gains (losses) on derivative instruments in the consolidated statements of operations.

Recent Accounting Pronouncements: In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, or ASU 2023-09, which requires additional disaggregated disclosures on the entity's effective tax rate reconciliation and additional details on income taxes paid. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024 and is to be adopted on a prospective basis with the option to apply retrospectively. The Company is currently assessing the impact of this guidance, however, the Company does not expect a material impact on its consolidated financial statements.

Note 2. Summary of Significant Accounting Policies (continued)

In November 2024, the FASB issued ASU 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures*, or ASU 2024-03, which requires disaggregated disclosure of certain costs and expenses, including purchases of inventory, employee compensation, depreciation, amortization and depletion, within relevant income statement captions. ASU 2024-03 is effective for fiscal years beginning after December 15, 2026, and interim periods beginning with the first quarter ended March 31, 2028. Early adoption and retrospective application is permitted. The Company is currently assessing the impact of this guidance, however, the Company does not expect a material impact on its consolidated financial statements.

Note 3. Share Transactions

Below is a summary of transactions with respect to shares of the Company's common stock during the six months ended June 30, 2025 and 2024:

| | | Six Months Ended June 30, | | | | | | | | |
|--------------------------------------|---------------|---------------------------|--------|--------|--|--|--|--|--|--|

During the six months ended June 30, 2025, the administrator for the Company's distribution reinvestment plan, or DRP, purchased 351,873 shares of common stock in the open market at an average price per share of \$21.03 (totaling \$7) pursuant to the DRP, and distributed such shares to participants in the DRP. During the six months ended June 30, 2024, the administrator for the Company's DRP purchased 1,628,448 shares of common stock in the open market at an average price per share of \$19.95 (totaling \$32) pursuant to the DRP, and distributed such shares to participants in the DRP. During the period from July 1, 2025 to July 31, 2025, the administrator for the DRP purchased 343,451 shares of common stock in the open market at an average price per share of \$21.36 (totaling \$7) pursuant to the DRP, and distributed such shares to participants in the DRP. For additional information regarding the terms of the DRP, see Note 5.

"At the Market" Offering

On May 9, 2025, the Company entered into equity distribution agreements, or the Equity Distribution Agreements, by and among the Company and the Adviser, and each of Truist Securities, Inc., RBC Capital Markets, LLC, KKR Capital Markets LLC, and SMBC Nikko Securities America, Inc., or the Sales Agents. The Equity Distribution Agreements provide that the Company may, from time to time, issue and sell shares of its common stock, par value \$0.001 per share, having an aggregate offering price of up to \$750, through the Sales Agents or to them as principals for their own respective accounts, in an "at the market offering," as defined in Rule 415 under the Securities Act of 1933, as amended, or the Securities Act.

Sales of shares, if any, may be made in negotiated transactions or transactions that are deemed to be "at the market," as defined in Rule 415 under the Securities Act, including sales made directly on The New York Stock Exchange or a similar securities exchange or sales made to or through a market maker other than on an exchange and by any other method permitted by law, which may include block trades, at prices related to prevailing market prices or negotiated prices.

The Sales Agents will receive a commission from the Company of up to 1.5% of the gross sales price of any shares sold through such Sales Agent under the Equity Distribution Agreements. The offering price per share of shares less commissions payable under the Equity Distribution Agreements and discounts, if any, will not be less than the net asset value per share of the Company's common stock at the time of such sale, provided, that the Adviser may, but is not obligated to, from time to time, in its sole discretion, pay some or all of the commissions payable under the Equity Distribution Agreements or make additional supplemental payments to ensure that the sales price per share of any shares sold in the offering will not be less than the Company's then-current net asset value per share. Any such payments made by the Adviser will not be subject to reimbursement by the Company.

During the three and six months ended June 30, 2025, the Company did not issue or sell shares of its common stock under the Equity Distribution Agreements.

Note 4. Related Party Transactions

Compensation of the Investment Adviser

Pursuant to the investment advisory agreement, the Adviser is entitled to a base management fee calculated at an annual rate of 1.50% of the average weekly value of the Company's gross assets excluding cash and cash equivalents (gross assets equal the total assets of the Company as set forth on the Company's consolidated balance sheets) and an incentive fee based on the Company's performance. Effective June 15, 2019, in connection with stockholder approval of the modification of the asset coverage requirement applicable to senior securities from 200% to 150%, the Adviser reduced (by permanent waiver) the annual base management fee payable under the investment advisory agreement from 1.5% to 1.0% on all assets financed using leverage over 1.0x debt-to-equity. The base management fee is payable quarterly in arrears. All or any part of the base management fee not taken as to any quarter will be deferred without interest and may be taken in such other quarter as the Adviser determines. See Note 2 for a discussion of the capital gains and subordinated income incentive fees that the Adviser may be entitled to under the investment advisory agreement.

The Adviser has agreed to exclude from the calculation of the subordinated incentive fee on income and the incentive fee on capital gains any changes to the fair value recorded for the assets and liabilities of FSKR resulting solely from the new cost basis of the acquired FSKR investments determined in accordance with *Accounting Standards Codification Topic 805-50*, *Business Combinations—Related Issues* as a result of the June 16, 2021 merger of FSKR.

On April 9, 2018, the Company entered into an administration agreement with the Adviser, or the administration agreement. Pursuant to the administration agreement, the Adviser oversees the Company's day-to-day operations, including the provision of general ledger accounting, fund accounting, legal services, investor relations, certain government and regulatory affairs activities, and other administrative services. The Adviser also performs, or oversees the performance of, the Company's corporate operations and required administrative services, which includes being responsible for the financial records that the Company is required to maintain and preparing reports for the Company's stockholders and reports filed with the SEC. In addition, the Adviser assists the Company in calculating its net asset value, overseeing the preparation and filing of tax returns and the printing and dissemination of reports to the Company's stockholders, and generally overseeing the payment of the Company's expenses and the performance of administrative and professional services rendered to the Company by others.

Pursuant to the administration agreement, the Company reimburses the Adviser for expenses necessary to perform services related to its administration and operations, including the Adviser's allocable portion of the compensation and related expenses of certain personnel of Franklin Square Holdings, L.P., which does business as Future Standard, or Future Standard, and KKR Credit Advisors (US), LLC, or KKR Credit, providing administrative services to the Company on behalf of the Adviser. The Company reimburses the Adviser no less than quarterly for all costs and expenses incurred by the Adviser in performing its obligations and providing personnel and facilities under the administration agreement. The Adviser allocates the cost of such services to the Company based on factors such as total assets, revenues, time allocations and/or other reasonable metrics. The Company's board of directors reviews the methodology employed in determining how the expenses are allocated to the Company and the proposed allocation of administrative expenses among the Company and certain affiliates of the Adviser. The Company's board of directors then assesses the reasonableness of such reimbursements for expenses allocated to it based on the breadth, depth and quality of such services as compared to the estimated cost to the Company of obtaining similar services from third-party service providers known to be available. In addition, the Company's board of directors considers whether any single third-party service provider would be capable of providing all such services at comparable cost and quality. Finally, the Company's board of directors compares the total amount paid to the Adviser for such services as a percentage of the Company's net assets to the same ratio as reported by other comparable BDCs.

The following table describes the fees and expenses accrued under the investment advisory agreement and the administration agreement, as applicable, during the three and six months ended June 30, 2025 and 2024:

| | | | Three Months Ended | | Ended | Six Months End | | | ıded | |

⁽¹⁾ During the six months ended June 30, 2025 and 2024, \$105 and \$111 in base management fees were paid to the Adviser. As of June 30, 2025, \$53 in base management fees were payable to the Adviser.

⁽²⁾ During the six months ended June 30, 2025 and 2024, \$74 and \$85, respectively, of subordinated incentive fees on income were paid to the Adviser. As of June 30, 2025, subordinated incentive fees on income of \$36 were payable to the Adviser.

Note 4. Related Party Transactions (continued)

During the six months ended June 30, 2025 and 2024, \$4 and \$4, respectively, of administrative services expenses related to the allocation of costs of administrative personnel for services rendered to the Company by the Adviser and the remainder related to other reimbursable expenses, including reimbursement of fees related to transactional expenses for prospective investments, such as fees and expenses associated with performing due diligence reviews of investments that do not close, often referred to as "broken deal" costs. Broken deal costs were \$0.4 for the six months ended June 30, 2025. The Company paid \$2 and \$3, respectively, in administrative services expenses to the Adviser during the six months ended June 30, 2025 and 2024.

Potential Conflicts of Interest

The members of the senior management and investment teams of the Adviser serve or may serve as officers, directors or principals of entities that operate in the same or a related line of business as the Company does, or of investment vehicles managed by the same personnel. For example, the Adviser is the investment adviser to KKR FS Income Trust and KKR FS Income Trust Select, and the officers, managers and other personnel of the Adviser may serve in similar or other capacities for the investment advisers to future investment vehicles affiliated with Future Standard or KKR Credit. In serving in these multiple and other capacities, they may have obligations to other clients or investors in those entities, the fulfillment of which may not be in the Company's best interests or in the best interest of the Company's stockholders. The Company's investment objectives may overlap with the investment objectives of such investment funds, accounts or other investment vehicles. For additional information regarding potential conflicts of interest, see the Company's annual report on Form 10-K for the year ended December 31, 2024.

Exemptive Relief

As a BDC, the Company is subject to certain regulatory restrictions in making its investments. For example, BDCs generally are not permitted to co-invest with certain affiliated entities in transactions originated by the BDC or its affiliates in the absence of an exemptive order from the SEC. However, BDCs are permitted to, and may, simultaneously co-invest in transactions where price is the only negotiated term.

In an order dated June 4, 2013, or the FS Order, the SEC granted exemptive relief permitting the Company, subject to the satisfaction of certain conditions, to co-invest in certain privately negotiated investment transactions with certain affiliates of its former investment adviser and any future BDCs that are advised by its former investment adviser or its affiliated investment advisers. However, in connection with the investment advisory relationship with the Adviser, and in an effort to mitigate potential future conflicts of interest, the Company's board of directors authorized and directed that the Company (i) withdraw from the FS Order, except with respect to any transaction in which the Company participated in reliance on the FS Order prior to April 9, 2018, and (ii) rely on an exemptive relief order, dated January 5, 2021, that permits the Company, subject to the satisfaction of certain conditions, to co-invest in certain privately negotiated investment transactions, including investments originated and directly negotiated by the Adviser or KKR Credit, with certain affiliates of the Adviser.

On June 16, 2025, the Company applied for streamlined co-investment exemptive relief, which, if granted by the SEC, would similarly permit co-investments with certain affiliates but would simplify certain of the conditions under the current order and provide more flexibility than the current order. The streamlined co-investment exemptive relief would supersede the exemptive order issued by the SEC on January 5, 2021, except to the extent the Company continues to rely on the FS Order solely with respect to any transaction in which the Company participated in reliance on the FS Order prior to April 9, 2018.

Affiliated Purchaser Program

As previously disclosed, certain affiliates of the owners of the Adviser committed \$100 to a \$350 investment vehicle that may invest from time to time in shares of the Company's common stock. In August 2023 and March 2024, that investment vehicle entered into a written trading plan with a third-party broker in accordance with Rule 10b5-1 and Rule 10b-18 promulgated under the Exchange Act to facilitate the sale of shares of the Company's common stock pursuant to the terms and conditions of such plan. The Company is not a party to any transaction with the investment vehicle.

On July 31, 2025, the Company's board of directors declared a regular quarterly distribution of \$0.70 per share consisting of a \$0.64 base distribution and a \$0.06 supplemental distribution, which will be paid on or about October 2, 2025 to stockholders of record as of the close of business on September 17, 2025. The timing and amount of any future distributions to stockholders are subject to applicable legal restrictions and the sole discretion of the Company's board of directors.

Pursuant to the DRP, the Company will reinvest all cash dividends or distributions declared by the Company's board of directors on behalf of stockholders who do not elect to receive their distributions in cash. As a result, if the Company's board of directors declares a distribution, then stockholders who have not elected to "opt out" of the DRP will have their distributions automatically reinvested in additional shares of the Company's common stock.

With respect to each distribution pursuant to the DRP, the Company reserves the right to either issue new shares of common stock or purchase shares of common stock in the open market in connection with implementation of the DRP. Unless the Company, in its sole discretion, otherwise directs the plan administrator, (A) if the per share market price (as defined in the DRP) is equal to or greater than the estimated net asset value per share (rounded up to the nearest whole cent) of the Company's common stock on the payment date for the distribution, then the Company will issue shares of common stock at the greater of (i) net asset value per share of common stock or (ii) 95% of the market price; or (B) if the market price is less than the net asset value per share, then, in the sole discretion of the Company, (i) shares of common stock will be purchased in open market transactions for the accounts of participants to the extent practicable, or (ii) the Company will issue shares of common stock at net asset value per share. Pursuant to the terms of the DRP, the number of shares of common stock to be issued to a participant will be determined by dividing the total dollar amount of the distribution payable to a participant by the price per share at which the Company issues such shares; provided, however, that shares purchased in open market transactions by the plan administrator will be allocated to a participant based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market.

If a stockholder receives distributions in the form of common stock pursuant to the DRP, such stockholder generally will be subject to the same federal, state and local tax consequences as if it elected to receive distributions in cash. If the Company's common stock is trading at or below net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of cash that they would have received if they had elected to receive the distribution in cash. If the Company's common stock is trading above net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of the fair market value of the Company's common stock. The stockholder's basis for determining gain or loss upon the sale of common stock received in a distribution will be equal to the total

Note 5. Distributions (continued)

dollar amount of the distribution payable to the stockholder. Any stock received in a distribution will have a holding period for tax purposes commencing on the day following the day on which the shares of common stock are credited to the stockholder's account.

The Company may fund its cash distributions to stockholders from any sources of funds legally available to it, including proceeds from the sale of shares of the Company's common stock, borrowings, net investment income from operations, capital gains proceeds from the sale of assets, non-capital gains proceeds from the sale of assets, and dividends or other distributions paid to the Company on account of preferred and common equity investments in portfolio companies. The Company has not established limits on the amount of funds it may use from available sources to make distributions. During certain periods, the Company's distributions may exceed its earnings. As a result, it is possible that a portion of the distributions the Company makes may represent a return of capital. A return of capital generally is a return of a stockholder's investment rather than a return of earnings or gains derived from the Company's investment activities. Each year a statement on Form 1099-DIV identifying the sources of the distributions (i.e., paid from ordinary income, paid from net capital gains on the sale of securities, and/or a return of capital, which is a nontaxable distribution) will be mailed to the Company's stockholders. There can be no assurance that the Company will be able to pay distributions at a specific rate or at all.

The following table reflects the sources of the cash distributions on a tax basis that the Company has paid on its common stock during the six months ended June 30, 2025 and 2024:

| | Six Months Ended June 30, | | | | | | | |

During the six months ended June 30, 2025 and 2024, 83.6% and 88.3%, respectively, of the Company's gross investment income was attributable to cash income earned, 2.0% and 2.8%, respectively, was attributable to non-cash accretion of discount and 14.4% and 8.9%, respectively, was attributable to PIK interest.

The determination of the tax attributes of the Company's distributions is made annually as of the end of the Company's fiscal year based upon the Company's taxable income for the full year and distributions paid for the full year. Therefore, a determination made on a quarterly basis may not be representative of the actual tax attributes of the Company's distributions for a full year. The actual tax characteristics of distributions to stockholders are reported to stockholders annually on Form 1099-DIV.

Net capital losses may be carried forward indefinitely, and their character is retained as short-term or long-term losses. As of June 30, 2025, the Company had capital loss carryforwards available to offset future realized capital gains of approximately \$2,871. Because of the loss limitation rules of the Code, some of the tax basis losses may be limited in their use. Any unused balances resulting from such limitations may be carried forward into future years indefinitely.

As of June 30, 2025 and December 31, 2024, the Company's gross unrealized appreciation on a tax basis was \$1,195 and \$1,254, respectively. As of June 30, 2025 and December 31, 2024, the Company's gross unrealized depreciation on a tax basis was \$1,912 and \$1,762, respectively.

The aggregate cost of the Company's investments for U.S. federal income tax purposes totaled \$15,023 and \$14,760 as of June 30, 2025 and December 31, 2024, respectively. The aggregate net unrealized appreciation (depreciation) on investments on a tax basis was \$(1,375) and \$(1,270) as of June 30, 2025 and December 31, 2024, respectively. The aggregate net unrealized appreciation (depreciation) on investments on a tax basis excludes net unrealized appreciation (depreciation) from merger accounting, foreign currency forward contracts and foreign currency transactions.

As of June 30, 2025, the Company had a gross deferred tax liability of \$5 and net deferred tax liability of \$0 resulting from unrealized appreciation on investments held by the Company's wholly-owned taxable subsidiaries, a deferred tax asset of \$130 resulting from a combination of unrealized depreciation on investments held by and net operating losses and other tax attributes of the Company's wholly-owned taxable subsidiaries. As of June 30, 2025, certain wholly-owned taxable subsidiaries anticipated that they

Note 5. Distributions (continued)

would be unable to fully utilize their generated net operating losses, therefore the deferred tax asset was offset by a valuation allowance of \$125. During the six months ended June 30, 2025, the Company recorded a provision for taxes related to wholly-owned taxable subsidiaries of \$11 related to current taxes.

Amortized cost represents the original cost adjusted for the amortization of premiums and/or accretion of discounts and PIK interest or dividends, as applicable, on investments.

In general, under the 1940 Act, the Company would be presumed to "control" a portfolio company if it owned more than 25% of its voting securities or it had the power to exercise control over the management or policies of such portfolio company, and would be an "affiliated person" of a portfolio company if it owned 5% or more of its voting securities.

As of June 30, 2025, the Company held investments in thirty-two portfolio companies of which it is deemed to "control." As of June 30, 2025, the Company held investments in eleven portfolio companies of which it is deemed to be an "affiliated person" but is not deemed to "control." For additional information with respect to such portfolio companies, see footnotes (ac) and (ad) to the unaudited consolidated schedule of investments as of June 30, 2025 in this quarterly report on Form 10-Q.

As of December 31, 2024, the Company held investments in thirty-one portfolio companies of which it is deemed to "control." As of December 31, 2024, the Company held investments in eleven portfolio companies of which it is deemed to be an "affiliated person" but is not deemed to "control." For additional information with respect to such portfolio companies, see footnotes (ac) and (ad) to the consolidated schedule of investments as of December 31, 2024 in this quarterly report on Form 10-Q.

The Company's investment portfolio may contain loans and other unfunded arrangements that are in the form of lines of credit, revolving credit facilities, delayed draw credit facilities or other investments, which require the Company to provide funding when requested by portfolio companies in accordance with the terms of the underlying agreements. As of June 30, 2025, the Company had unfunded debt investments with aggregate unfunded commitments of \$1,730.1, unfunded equity/other commitments of \$369.7 and unfunded commitments of \$577.5 to Credit Opportunities Partners JV, LLC, or COPJV. As of December 31, 2024, the Company had unfunded debt investments with aggregate unfunded commitments of \$1,534.1, unfunded equity/other commitments of \$387.1 and unfunded commitments of \$735.2 to COPJV. The Company maintains sufficient cash on hand and available borrowings to fund such unfunded commitments should the need arise. For additional details regarding the Company's unfunded debt investments, see the Company's unaudited consolidated schedule of investments as of June 30, 2025 and the Company's audited consolidated schedule of investments as of December 31, 2024.

Offsetting of Derivative Instruments

The Company has derivative instruments that are subject to master netting agreements. These agreements include provisions to offset positions with the same counterparty in the event of default by one of the parties. The Company's unrealized appreciation and depreciation on derivative instruments are reported as gross assets and liabilities, respectively, in the consolidated balance sheets. The following tables present the Company's assets and liabilities related to derivatives by counterparty, net of amounts available for offset under a master netting arrangement and net of any collateral received or pledged by the Company for such assets and liabilities as of June 30, 2025 and December 31, 2024:

Foreign Currency Forward Contracts and Cross Currency Swaps

The Company may enter into foreign currency forward contracts and cross currency swaps from time to time to facilitate settlement of purchases and sales of investments denominated in foreign currencies and to economically hedge the impact that an adverse change in foreign exchange rates would have on the value of the Company's investments denominated in foreign currencies. A foreign currency forward contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. These contracts are marked-to-market by recognizing the difference between the contract forward exchange rate and the forward market exchange rate on the last day of the period presented as unrealized appreciation or depreciation. Realized gains or losses are recognized when forward contracts are settled. Risks arise as a result of the potential inability of the counterparties to meet the terms of their contracts. The Company attempts to limit counterparty risk by only dealing with well-known counterparties.

Cross currency swaps are interest rate swaps in which interest cash flows are exchanged between two parties based on the notional amounts of two different currencies. These swaps are marked-to-market by recognizing the difference between the present value of cash flows of each leg of the swaps as unrealized appreciation or depreciation. Realized gain or loss is recognized when periodic payments are received or paid and the swaps are terminated. The entire notional value of a cross currency swap is subject to the risk that the counterparty to the swap will default on its contractual delivery obligations. The Company attempts to limit counterparty risk by only dealing with well-known counterparties. The Company utilizes cross currency swaps from time to time in order to hedge a portion of its investments in foreign currency.

The average notional balance for foreign currency forward contracts during the six months ended June 30, 2025 and 2024 was \$174.4 and \$188.0, respectively. See consolidated schedules of investments for the Company's open foreign currency forward contracts.

Interest Rate Swaps

In connection with the Company's issuance of \$600 aggregate principal amount of its 6.875% Notes due 2029, or the 6.875% Notes, the Company entered into interest rate swap agreements for a total notional amount of \$600 that mature on August 15, 2029, to reduce the exposure to changes in fair value associated with the 6.875% Notes. Under an interest rate swap agreement entered into on June 13, 2024, the Company receives a fixed interest rate of 6.875% and pays a floating interest rate of one-month SOFR plus 2.754% on a notional amount of \$200; and under an interest rate swap agreement entered into on June 27, 2024, the Company receives a fixed interest rate of 6.875% and pays a floating interest rate of one-month SOFR plus 2.788% on a notional amount of \$400. The Company designated these interest rate swaps and the 6.875% Notes as a qualifying fair value hedge accounting relationship. See Note 9 for more information on the 6.875% Notes.

In connection with the Company's issuance of \$700 aggregate principal amount of its 6.125% Notes due 2030, or the 6.125% Notes, the Company entered into interest rate swap agreements for a total notional amount of \$700 that mature on January 15, 2030, to reduce the exposure to changes in fair value associated with the 6.125% Notes. Under an interest rate swap agreement entered into on November 13, 2024, the Company receives a fixed interest rate of 6.125% and pays a floating interest rate of daily compounded SOFR plus 2.1374% on a notional amount of \$600; and under an interest rate swap agreement entered into on December 20, 2024, the Company receives a fixed interest rate of 6.125% and pays a floating interest rate of daily compounded SOFR plus 2.0614% on a notional amount of \$100. The Company designated these interest rate swaps and the 6.125% Notes as a qualifying fair value hedge accounting relationship. See Note 9 for more information on the 6.125% Notes.

As of June 30, 2025, the counterparty to the Company's interest rate swap agreements was ING Capital Markets LLC.

As a result of the Company's designation of the interest rate swaps as hedging instruments in a qualifying fair value hedge accounting relationship, the Company is required to fair value the hedging instruments and the related hedged items, with the changes

Note 8. Fair Value of Financial Instruments

Under existing accounting guidance, fair value is defined as the price that the Company would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment. This accounting guidance emphasizes valuation techniques that maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances. The Company classifies the inputs used to measure these fair values into the following hierarchy as defined by current accounting guidance:

Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs that are quoted prices for similar assets or liabilities in active markets.

Level 3: Inputs that are unobservable for an asset or liability.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

As of June 30, 2025 and December 31, 2024, the Company's investments were categorized as follows in the fair value hierarchy:

| | Jı | ane 30, 2025 | | | |
|--|----|--------------|-------------------|--------|--|
| Valuation Inputs | (| Unaudited) | December 31, 2024 | | |
| Level 1—Price quotations in active markets | \$ | 3 | \$ | 1 | |
| Level 2—Significant other observable inputs | | 23 | | 91 | |
| Level 3—Significant unobservable inputs | | 11,990 | | 12,035 | |
| Investments measured at net asset value ⁽¹⁾ | | 1,632 | | 1,363 | |
| | \$ | 13,648 | \$ | 13,490 | |

⁽¹⁾ Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated balance sheets.

In addition, the Company had foreign currency forward contracts and interest rate swaps, as described in Note 7, which were categorized as Level 2 in the fair value hierarchy as of June 30, 2025 and December 31, 2024.

The Company's board of directors is responsible for overseeing the valuation of the Company's portfolio investments at fair value as determined in good faith pursuant to the Adviser's valuation policy. The Company's board of directors has designated the Adviser with day-to-day responsibility for implementing the portfolio valuation process set forth in the Adviser's valuation policy.

⁽²⁾ The asset related to the fair value of the interest rate swaps was offset by a \$39 increase to the carrying value of the 6.125% Notes.

Note 8. Fair Value of Financial Instruments (continued)

The Company's investments consist primarily of debt investments that were acquired directly from the issuer. Debt investments, for which broker quotes are not available, are valued by independent valuation firms, which determine the fair value of such investments by considering, among other factors, the borrower's ability to adequately service its debt, prevailing interest rates for like investments, expected cash flows, call features, anticipated repayments and other relevant terms of the investments. Except as described below, all of the Company's equity/other investments are also valued by independent valuation firms, which determine the fair value of such investments by considering, among other factors, contractual rights ascribed to such investments, as well as various income scenarios and multiples of earnings before interest, taxes, depreciation and amortization, or EBITDA, cash flows, net income, revenues or, in limited instances, book value or liquidation value. An investment that is newly issued and purchased near the date of the financial statements is valued at cost if the Adviser determines that the cost of such investment is the best indication of its fair value. Such investments described above are typically classified as Level 3 within the fair value hierarchy. Investments that are traded on an active public market are valued at their closing price as of the date of the financial statements and are classified as Level 1 within the fair value hierarchy. Except as described above, the Adviser typically values the Company's other investments by using the midpoint of the prevailing bid and ask prices from dealers on the date of the relevant period end, which are provided by independent third-party pricing services and screened for validity by such services and are typically classified as Level 2 within the fair value hierarchy.

The Adviser periodically benchmarks the bid and ask prices it receives from the third-party pricing services and/or dealers and independent valuation firms as applicable, against the actual prices at which the Company purchases and sells its investments. Based on the results of the benchmark analysis and the experience of the Company's management in purchasing and selling these investments, the Adviser believes that these prices are reliable indicators of fair value. The Adviser reviewed and approved the valuation determinations made with respect to these investments in a manner consistent with the Adviser's valuation policy.

Investments valued using an EBITDA multiple or a revenue multiple pursuant to the market comparables valuation technique may be conducted using an enterprise valuation waterfall analysis.

⁽²⁾ Represents the directional change in the fair value of the Level 3 investments that would result from an increase to the corresponding unobservable input. A decrease to the input would have the opposite effect. Significant changes in these inputs in isolation could result in significantly higher or lower fair value measurements.

Note 9. Financing Arrangements

Prior to June 14, 2019, in accordance with the 1940 Act, the Company was allowed to borrow amounts such that its asset coverage, calculated pursuant to the 1940 Act, was at least 200% after such borrowing. Effective June 15, 2019, the Company's asset coverage requirement applicable to senior securities was reduced from 200% to 150%. As of June 30, 2025, the aggregate amount outstanding of the senior securities issued by the Company was \$8,022. As of June 30, 2025, the Company's asset coverage was 177%.

The following tables present summary information with respect to the Company's outstanding financing arrangements as of June 30, 2025 and December 31, 2024. For additional information regarding these financing arrangements, see the notes to the Company's audited consolidated financial statements contained in its annual report on Form 10-K for the year ended December 31, 2024. See Note 9 to the financial statements included in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2025 for a description of amendments or other changes to the financing arrangements during the three months ended March 31, 2025. Any significant changes to the Company's financing arrangements during the three months ended June 30, 2025 are discussed below

⁽¹⁾ The benchmark rate is subject to a 0% floor.

⁽²⁾ The carrying amount outstanding under the facility approximates its fair value.

⁽³⁾ As of June 30, 2025, there was \$60 term loan outstanding at SOFR+1.90% and \$30 revolving commitment outstanding at SOFR+2.05%.

⁽⁴⁾ The spread over the benchmark rate is determined by reference to the ratio of the value of the borrowing base to the aggregate amount of certain outstanding indebtedness of the Company. In addition to the spread over the benchmark rate, a credit spread adjustment of 0.10% and 0.0326% is applicable to borrowings in U.S. dollars and pounds sterling, respectively.

⁽⁵⁾ Amount includes borrowing in Euros, pounds sterling and Australian dollars. Euro balance outstanding of €467 has been converted to U.S. dollars at an exchange rate of €1.00 to \$1.18 as of June 30, 2025 to reflect total amount outstanding in U.S. dollars. Pounds sterling balance outstanding of £288 has been converted to U.S dollars at an exchange rate of £1.00 to \$1.37 as of June 30, 2025 to reflect total amount outstanding in U.S. dollars. Australian dollar balance outstanding of AUD36 has been converted to U.S dollars at an exchange rate of AUD1.00 to \$0.66 as of June 30, 2025 to reflect total amount outstanding in U.S. dollars.

⁽⁶⁾ The amount available for borrowing under the Senior Secured Revolving Credit Facility is reduced by any standby letters of credit issued under the Senior Secured Revolving Credit Facility. As of June 30, 2025, \$30 of such letters of credit have been issued.

⁽⁷⁾ As of June 30, 2025, the fair value of the 3.400% Notes, the 2.625% Notes, the 3.250% Notes, the 3.125% Notes, the 7.875% Notes, the 6.875% Notes and the 6.125% Notes was approximately \$991, \$384, \$480, \$688, \$422, \$624 and \$739, respectively. These valuations are considered Level 2 valuations within the fair value hierarchy.

⁽⁸⁾ The carrying value of the 6.875% Notes and 6.125% Notes as of June 30, 2025 includes a \$24 and \$39 increase, respectively, as a result of an effective hedge accounting relationship. See Note 7 for additional information.

⁽⁹⁾ As of June 30, 2025, there were \$91.2 of Class A-1R notes outstanding at SOFR+1.85%, \$20.5 of Class A-2R notes outstanding at SOFR+2.25%, \$32.4 of Class B-1R notes outstanding at SOFR+2.60% and \$17.4 of Class B-2R notes outstanding at 3.011%. ⁽¹⁾ Borrowings of each of the Company's wholly-owned, special-purpose financing subsidiaries are considered borrowings of the Company for purposes of complying with the asset coverage requirements applicable to BDCs under the 1940 Act.

The Company's average borrowings and weighted average interest rate, including the effect of non-usage fees, for the six months ended June 30, 2025 were \$8,212 and 5.51%, respectively. As of June 30, 2025, the Company's weighted average effective interest rate on borrowings, including the effect of non-usage fees, was 5.34%.

The Company's average borrowings and weighted average interest rate, including the effect of non-usage fees, for the six months ended June 30, 2024 were \$8,176 and 5.42%, respectively. As of June 30, 2024, the Company's weighted average effective interest rate on borrowings, including the effect of non-usage fees, was 5.34%.

Under its financing arrangements, the Company has made certain representations and warranties and is required to comply with various covenants, reporting requirements and other customary requirements for similar financing arrangements. The Company was in compliance with all covenants required by its financing arrangements as of June 30, 2025 and December 31, 2024.

Callowhill Credit Facility

On June 2, 2025, Callowhill Street Funding LLC, or Callowhill, a wholly-owned, special purpose financing subsidiary of the Company, entered into a revolving credit facility, or the Callowhill Credit Facility, pursuant to a Loan and Security Agreement, the Loan Agreement, by and among Callowhill, as borrower, Canadian Imperial Bank of Commerce, or CIBC, as administrative agent,

⁽²⁾ Direct interest expense includes the effect of non-usage fees.

⁽³⁾ Direct interest expense includes the impact of interest rate swaps.

Note 9. Financing Arrangements (continued)

each of the lenders from time to time party thereto, and Computershare Trust Company, N.A., as securities intermediary, collateral agent, collateral administrator and collateral custodian. The Callowhill Credit Facility provides for, among other things, borrowings in an initial aggregate amount of up to \$400.

The revolving period during which Callowhill is permitted to borrow, repay and re-borrow advances will terminate on June 2, 2028. Advances under the Callowhill Credit Facility are subject to satisfaction of certain conditions, including maintenance of the required borrowing base. Any amounts borrowed under the Callowhill Credit Facility will mature, and all accrued and unpaid interest thereunder will be due and payable, on June 3, 2030.

Borrowings under the Callowhill Credit Facility accrue interest at a rate equal to a spread of 1.75% per annum plus (i) in the case of borrowings in Dollars, at the option of Callowhill either (x) Daily Simple SOFR or (y) Term SOFR, as applicable, (ii) in the case of borrowings in Sterling, Daily Simple SONIA, (iii) in the case of borrowings in Australian Dollars, BBSY and (iv) in the case of borrowings in Canadian Dollars, Term CORRA. In addition, Callowhill will pay a non-usage fee on the unused facility amount, for each day following the three-month anniversary of the Closing Date, equal to the sum of the products of (i) 0.50% and (ii) the positive difference, if any, of the aggregate commitments minus the greater of (x) the advances outstanding and (y) the minimum utilization.

Darby Creek Credit Facility

On June 5, 2025, Darby Creek LLC, or Darby, repaid all outstanding borrowings under, and terminated the loan financing and servicing agreement, or Darby Creek Facility, by and among Darby, as borrower, Deutsche Bank AG, New York Branch, as facility agent, each other lender from time to time party thereto, and Wells Fargo Bank, N.A., as collateral agent and collateral custodian, which resulted in a realized loss on the extinguishment of debt of \$3.

Note 10. Commitments and Contingencies

The Company enters into contracts that contain a variety of indemnification provisions. The Company's maximum exposure under these arrangements is unknown; however, the Company has not had prior claims or losses pursuant to these contracts. The Adviser has reviewed the Company's existing contracts and expects the risk of loss to the Company to be remote.

The Company is not currently subject to any material legal proceedings and, to the Company's knowledge, no material legal proceedings are threatened against the Company. From time to time, the Company may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of the Company's rights under contracts with its portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, the Company does not expect that any such proceedings will have a material effect upon its financial condition or results of operations.

Unfunded commitments to provide funds to portfolio companies are not recorded in the Company's consolidated balance sheets. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. The Company has sufficient liquidity to fund these commitments. As of June 30, 2025, the Company's unfunded commitments consisted of the following:

Note 10. Commitments and Contingencies (continued)

As of June 30, 2025, the Company's debt commitments are comprised of \$841.3 revolving credit facilities and \$888.8 delayed draw term loans, which generally are used for acquisitions or capital expenditures and are subject to certain performance tests. Such unfunded debt commitments have a fair value representing unrealized appreciation (depreciation) of \$(2.1). The Company's unfunded Asset Based Finance/Other commitments generally require certain conditions to be met or actual approval from the Adviser prior to funding.

The Senior Secured Revolving Credit Facility provides for the issuance of letters of credit in an initial aggregate face amount of up to \$175, subject to increase or reduction from time to time pursuant to the terms of the Senior Secured Revolving Credit Facility. As of June 30, 2025, \$30 of such letters of credit have been issued.

As of June 30, 2025, the Company also has an unfunded commitment to provide \$577.5 of capital to COPJV. The capital commitment can be satisfied with contributions of cash and/or investments. The capital commitments cannot be drawn without an affirmative vote by both the Company's and SCRS's representatives on COPJV's board of managers.

While the Company does not expect to fund all of its unfunded commitments, there can be no assurance that it will not be required to do so.

In the normal course of business, the Company may enter into guarantees on behalf of portfolio companies. Under such arrangements, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. The Company has no such guarantees outstanding at June 30, 2025 and December 31, 2024.

Note 11. Financial Highlights

- (1) Per share data may be rounded in order to recompute the ending net asset value per share.
- (2) The per share data was derived by using the weighted average shares outstanding during the applicable period.
- (3) The per share data for distributions reflect the actual amount of distributions declared per share during the applicable period.
- (4) Represents the incremental impact of the Company's respective stock repurchase programs by buying shares in the open market at a price lower than net asset value per share.
- The total return based on net asset value for each period presented was calculated by taking the net asset value per share as of the end of the applicable period, adding the distributions per share that were declared during the period and dividing the total by the net asset value per share at the beginning of the period. Total return based on net asset value does not consider the effect of any sales commissions or charges that may be incurred in connection with the sale of shares of the Company's common stock. The historical calculation of total return based on net asset value in the table should not be considered a representation of the Company's future total return based on net asset value, which may be greater or less than the return shown in the table due to a number of factors, including the Company's ability or inability to make investments in companies that meet its investment criteria, the interest rates payable on the debt securities the Company acquires, the level of the Company's expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which the Company encounters competition in its markets and general economic conditions. As a result of these factors, results for any previous period should not be relied upon as being indicative of performance in future periods. The total return calculations set forth above represent the total return on the Company's investment portfolio during the applicable period and do not represent an actual return to stockholders.
- (6) The total return based on market value for each period presented was calculated based on the change in market price during the applicable period, including the impact of distributions reinvested in accordance with the Company's DRP. Total return based on market value does not consider the effect of any sales commissions or charges that may be incurred in connection with the sale of shares of the Company's

common stock. The historical calculation of total return based on market value in the table should not be considered a representation of the Company's future total return based on market value, which may be greater or less than the return shown in the table due to a number of factors, including the Company's ability or inability to make investments in companies that meet its investment criteria, the interest rates payable on the debt securities the Company acquires, the level of the Company's expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which the Company encounters competition in its markets, general economic conditions and fluctuations in per share market value. As a result of these factors, results for any previous period should not be relied upon as being indicative of performance in future periods.

(7) Weighted average net assets during the applicable period are used for this calculation. Ratios for the six months ended June 30, 2025 and 2024 are annualized. Annualized ratios for the six months ended June 30, 2025 are not necessarily indicative of the ratios that may be expected for the year ending December 31, 2025. The following is a schedule of supplemental ratios for the six months ended June 30, 2025 and 2024:

| | Six Months Ended | June 30, |
|---|------------------|----------|
| | 2025 | 2024 |
| Ratio of subordinated income incentive fees to average net assets | 2.27 % | 2.55 % |
| Ratio of interest expense to average net assets | 7.20 % | 6.70 % |

- (8) Portfolio turnover for the six months ended June 30, 2025 and 2024 are not annualized.
- (9) Asset coverage per unit is the ratio of the carrying value of the Company's total consolidated assets, less liabilities and indebtedness not represented by senior securities, to the aggregate amount of senior securities representing indebtedness.

Note 12. Segment Reporting

The Company operates through a single operating and reporting segment with an investment objective to generate current income and, to a lesser extent, long-term capital appreciation. The Chief Operating Decision Maker, or CODM, is comprised of the Company's chief executive officer and chief investment officer. The CODM assesses the performance and makes operating decisions of the Company on a consolidated basis primarily based on the Company's net increase in stockholders' equity resulting from operations, or net income. In addition to numerous other factors and metrics, the CODM utilizes net income as a key metric in determining the amount of dividends to be distributed to the Company's stockholders. As the Company's operations comprise of a single reporting segment, the segment assets are reflected on the accompanying consolidated balance sheets as "total assets" and the significant segment expenses are listed on the accompanying consolidated statements of operations.

Note 13. Subsequent Events

Distribution

On July 31, 2025, the Company's board of directors declared a regular quarterly distribution of \$0.70 per share consisting of a \$0.64 base distribution and a \$0.06 supplemental distribution, which will be paid on or about October 2, 2025 to stockholders of record as of the close of business on September 17, 2025. The timing and amount of any future distributions to stockholders are subject to applicable legal restrictions and the sole discretion of the Company's board of directors.

Senior Secured Revolving Credit Facility

On July 16, 2025, the Company entered into a third amended and restated senior secured revolving credit agreement, or the Third Amended and Restated Senior Secured Revolving Credit Facility, with the Company, as borrower, JPMorgan Chase Bank, N.A., or JPMorgan, as administrative agent, ING Capital LLC, or ING, as collateral agent, and the lenders party thereto, which amended and restated the second amended and restated senior secured revolving credit facility originally entered into on December 23, 2020, which was subsequently amended by Amendment No. 1 on September 27, 2021, by Amendment No. 2 on May 17, 2022, by Amendment No. 3 on October 31, 2023, and by Amendment No. 4 on June 26, 2024. The Third Amended and Restated Senior Secured Revolving Credit Facility provides for borrowings in U.S. dollars and certain agreed upon foreign currencies in an initial aggregate amount of up to \$4,700 with an option for the Company to request, at one or more times, that existing and/or new lenders, at their election, provide up to \$2,350 of additional commitments. The Third Amended and Restated Senior Secured Revolving Credit Facility provides for the issuance of letters of credit in an initial aggregate face amount of up to \$240, with a sublimit available for the Company to request the issuance of letters of credit in an aggregate face amount of up to \$400, subject to increase or reduction from

time to time pursuant to the terms of the Third Amended and Restated Senior Secured Revolving Credit Facility. Capitalized terms used herein shall have the meanings specified in the Third Amended and Restated Senior Secured Revolving Credit Facility.

Availability under the Third Amended and Restated Senior Secured Revolving Credit Facility will terminate on July 16, 2029, or the Commitment Termination Date, and the outstanding loans under the Third Amended and Restated Senior Secured Revolving Credit Facility will mature on July 16, 2030. The Third Amended and Restated Senior Secured Revolving Credit Facility also requires mandatory prepayment of interest and principal upon certain events during the term-out period commencing on the Commitment Termination Date.

Borrowings under the Third Amended and Restated Senior Secured Revolving Credit Facility are subject to compliance with a borrowing base test. With respect to lenders other than non-extending lenders, interest under the Third Amended and Restated Senior Secured Revolving Credit Facility for (i) ABR Loans, (A) if the value of the gross borrowing base is equal to or greater than 1.60 times the aggregate amount of certain outstanding indebtedness of the Company, or the Combined Debt Amount, is payable at an "alternate base rate" (which is the greatest of (a) the prime rate as publicly announced by the Wall Street Journal, (b) the sum of (x) the greater of (I) the federal funds effective rate and (II) the overnight bank funding rate plus (y) 0.5%, and (c) the one month Adjusted Term SOFR Rate plus 1%), plus 0.650% per annum, and (B) if the value of the gross borrowing base is less than 1.60 times the Combined Debt Amount, the alternate base rate plus 0.775% per annum; and (ii) Term Benchmark Loans or RFR Loans (A) if the value of the gross borrowing base is equal to or greater than 1.60 times the Combined Debt Amount, is payable at a rate equal to the applicable benchmark rate plus 1.650% per annum, and (B) if the value of the gross borrowing base is less than 1.60 times the Combined Debt Amount, is payable at a rate equal to the applicable benchmark rate plus 1.775% per annum. With respect to nonextending lenders, interest under the Third Amended and Restated Senior Secured Revolving Credit Facility for (i) ABR Loans, (A) if the value of the gross borrowing base is equal to or greater than 1.60 times the aggregate amount of certain outstanding indebtedness of the Company, or the Combined Debt Amount, is payable at the alternative base rate, plus 0.750% per annum, and (B) if the value of the gross borrowing base is less than 1.60 times the Combined Debt Amount, the alternate base rate plus 0.875% per annum; and (ii) Term Benchmark Loans or RFR Loans (A) if the value of the gross borrowing base is equal to or greater than 1.60 times the Combined Debt Amount, is payable at a rate equal to the applicable benchmark rate plus 1.750% per annum, and (B) if the value of the gross borrowing base is less than 1.60 times the Combined Debt Amount, is payable at a rate equal to the applicable benchmark rate plus 1.875% per annum. The Company will pay a commitment fee, with respect to lenders other than non-extending lenders, of 0.350% per annum and, with respect to non-extending lenders, and 0.375% per annum, on the daily unused portion of its sublimit under the Third Amended and Restated Senior Secured Revolving Credit Facility during the revolving period. The Company also will be required to pay letter of credit participation fees and a fronting fee on the average daily amount of any lender's exposure with respect to any letters of credit issued at the request of the Company under the Third Amended and Restated Senior Secured Revolving Credit Facility.

In connection with the Third Amended and Restated Senior Secured Revolving Credit Facility, the Company has made certain representations and warranties and must comply with various covenants and reporting requirements customary for facilities of this type. In addition, the Company must comply with the following financial covenants: (a) the Company must maintain a minimum shareholders' equity, measured as of each fiscal quarter end; and (b) the Company must maintain at all times a 150% asset coverage ratio (or, if greater, the statutory requirement then applicable to the Company).

The Third Amended and Restated Senior Secured Revolving Credit Facility contains events of default customary for facilities of this type. Upon the occurrence of an event of default, JPMorgan, at the instruction of the lenders, may terminate the commitments and declare the outstanding advances and all other obligations under the Third Amended and Restated Senior Secured Revolving Credit Facility immediately due and payable.

The Company's obligations under the Third Amended and Restated Senior Secured Revolving Credit Facility are guaranteed by certain of the Company's subsidiaries. The Company's obligations under the Third Amended and Restated Senior Secured Revolving Credit Facility are secured by a first priority security interest in substantially all of the assets of the Company and certain of the Company's subsidiaries thereunder.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations. (in millions, except share and per share amounts)

The information contained in this section should be read in conjunction with our unaudited consolidated financial statements and related notes thereto appearing elsewhere in this quarterly report on Form 10-Q. Forward-Looking Statements

Some of the statements in this quarterly report on Form 10-Q constitute forward-looking statements because they relate to future events or our future performance or financial condition. The forward-looking statements contained in this quarterly report on Form 10-Q may include statements as to:

- our future operating results;
- our business prospects and the prospects of the companies in which we may invest;
- the impact of the investments that we expect to make;
- the ability of our portfolio companies to achieve their objectives;
- our current and expected financings and investments;
- receiving and maintaining corporate credit ratings and changes in the general interest rate environment;
- the elevated levels of inflation, and its impact on our portfolio companies and on the industries in which we invest;
- the adequacy of our cash resources, financing sources and working capital;
- the timing and amount of cash flows, distributions and dividends, if any, from our portfolio companies;
- our contractual arrangements and relationships with third parties;
- actual and potential conflicts of interest with the other funds managed by the Adviser, Future Standard, KKR Credit or any of their respective affiliates;
- the dependence of our future success on the general economy and its effect on the industries in which we may invest;
- general economic, political and industry trends and other external factors, including uncertainty surrounding the financial and political stability of the United States and other countries;
- our use of financial leverage;
- the ability of the Adviser to locate suitable investments for us and to monitor and administer our investments;
- the ability of the Adviser or its affiliates to attract and retain highly talented professionals;
- our ability to maintain our qualification as a RIC and as a BDC;
- the impact on our business of U.S. and international financial reform legislation, rules and regulations;
- the effect of changes to tax legislation on us and the portfolio companies in which we may invest and our and their tax position; and
- the tax status of the enterprises in which we may invest.

Words such as "anticipate," "believe," "expect" and "intend" indicate a forward-looking statement, although not all forward-looking statements include these words. The forward-looking statements contained in this quarterly report on Form 10-Q are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control and difficult to predict and could cause our actual results to differ materially from those expressed or forecasted in the forward-looking statements. Factors that could cause actual results to differ materially include changes relating to those set forth above and the following, among others:

- changes in the economy;
- geo-political risks;

- risks associated with possible disruption in our operations or the economy generally due to terrorism, natural disasters or pandemics;
- future changes in laws or regulations and conditions in our operating areas; and
- the price at which shares of our common stock may trade on the New York Stock Exchange, or NYSE.

We have based the forward-looking statements included in this quarterly report on Form 10-Q on information available to us on the date of this quarterly report on Form 10-Q. You should not place undue reliance on these forward-looking statements. Except as required by the federal securities laws, we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise. Stockholders are advised to consult any additional disclosures that we may make directly to stockholders or through reports that we may file in the future with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K. The forward-looking statements and projections contained in this quarterly report on Form 10-Q are excluded from the safe harbor protection provided by Section 27A of the Securities Act and Section 21E of the Exchange Act.

Overview

We were incorporated under the general corporation laws of the State of Maryland on December 21, 2007 and formally commenced investment operations on January 2, 2009. We are an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a BDC under the 1940 Act and has elected to be treated for U.S. federal income tax purposes, and intends to qualify annually, as a RIC under Subchapter M of the Code.

We are externally managed by the Adviser pursuant to the investment advisory agreement and supervised by our board of directors, a majority of whom are independent.

Our investment objectives are to generate current income and, to a lesser extent, long-term capital appreciation. We seek to meet our investment objectives by:

- utilizing the experience and expertise of the management team of the Adviser;
- employing a defensive investment approach focused on long-term credit performance and preservation of principal;
- focusing primarily on debt investments in a broad array of private U.S. companies, including middle-market companies, which we define as companies with annual EBITDA of \$50 million to \$150 million at the time of investment;
- investing primarily in established, stable enterprises with positive cash flows; and
- maintaining rigorous portfolio monitoring in an attempt to anticipate and pre-empt negative credit events within our portfolio, such as an event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a portfolio company.

We pursue our investment objective by investing primarily in the debt of middle market U.S. companies with a focus on originated transactions sourced through the network of the Adviser and its affiliates. We define direct originations as any investment where the Company's investment adviser, sub-adviser or their affiliates had negotiated the terms of the transaction beyond just the price, which, for example, may include negotiating financial covenants, maturity dates or interest rate terms. These directly originated transactions include participation in other originated transactions where there may be third parties involved, or a bank acting as an intermediary, for a closely held club, or similar transactions.

Our portfolio is comprised primarily of investments in senior secured loans and second lien secured loans of private middle market U.S. companies and, to a lesser extent, subordinated loans and certain asset-based financing loans of private U.S. companies. Although we do not expect a significant portion of our portfolio to be comprised of subordinated loans, there is no limit on the amount of such loans in which we may invest. We may purchase interests in loans or make other debt investments, including investments in senior secured bonds, through secondary market transactions in the "over-the-counter" market or directly from our target companies as primary market or directly originated investments. In connection with our debt investments, we may on occasion receive equity interests such as warrants or options as additional consideration. We may also purchase or otherwise acquire interests in the form of common or preferred equity or equity-related securities, such as rights and warrants that may be converted into or exchanged for common stock or other equity or the cash value of common stock or other equity, including through a co-investment with a financial sponsor or possibly the restructuring of an investment. In addition, a portion of our portfolio may be comprised of corporate bonds, structured products, other debt securities and derivatives, including total return swaps and credit default swaps. The Adviser will seek to tailor our investment focus as market conditions evolve. Depending on market conditions, we may increase or decrease our exposure to less senior portions of the capital structures of our portfolio companies or otherwise make opportunistic investments, such as where the market price of loans, bonds or other securities reflects a lower value than deemed warranted by the Adviser's fundamental analysis. Such investment opportunities may occur due to general dislocations in the markets, a misunderstanding by the

market of a particular company or an industry being out of favor with the broader investment community and may include event driven investments, anchor orders and structured products.

The senior secured loans, second lien secured loans and senior secured bonds in which we invest generally have stated terms of three to seven years and subordinated debt investments that we make generally have stated terms of up to ten years, but the expected average life of such securities is generally three to four years. However, we may invest in loans and securities with any maturity or duration. Our debt investments may be rated by a NRSRO and, in such case, generally will carry a rating below investment grade (rated lower than "Baa3" by Moody's or lower than "BBB-" by S&P). We may invest without limit in debt or other securities of any rating, as well as debt or other securities that have not been rated by a NRSRO.

Revenues

The principal measure of our financial performance is net increase in net assets resulting from operations, which includes net investment income, net realized gain or loss on investments, net realized gain or loss on foreign currency, net unrealized appreciation or depreciation on investments and net unrealized gain or loss on foreign currency. Net investment income is the difference between our income from interest, dividends, fees and other investment income and our operating and other expenses. Net realized gain or loss on investments is the difference between the proceeds received from dispositions of portfolio investments and their amortized cost, including the respective realized gain or loss on foreign currency for those foreign denominated investment transactions. Net realized gain or loss on foreign currency is the portion of realized gain or loss attributable to foreign currency fluctuations. Net unrealized appreciation or depreciation on investments is the net change in the fair value of our investment portfolio, including the respective unrealized gain or loss on foreign currency for those foreign denominated investments. Net unrealized gain or loss on foreign currency is the net change in the value of receivables or accruals due to the impact of foreign currency fluctuations.

We principally generate revenues in the form of interest income on the debt investments we hold. In addition, we generate revenues in the form of non-recurring commitment, closing, origination, structuring or diligence fees, monitoring fees, fees for providing managerial assistance, consulting fees, prepayment fees and performance-based fees. We may also generate revenues in the form of dividends and other distributions on the equity or other securities we hold.

Expenses

Our primary operating expenses include the payment of management and incentive fees and other expenses under the investment advisory agreement and the administration agreement, interest expense from financing arrangements and other indebtedness, and other expenses necessary for our operations. The management and incentive fees compensate the Adviser for its work in identifying, evaluating, negotiating, executing, monitoring and servicing our investments.

The Adviser oversees our day-to-day operations, including the provision of general ledger accounting, fund accounting, legal services, investor relations, certain government and regulatory affairs activities, and other administrative services. The Adviser also performs, or oversees the performance of, our corporate operations and required administrative services, which includes being responsible for the financial records that we are required to maintain and preparing reports for our stockholders and reports filed with the SEC. In addition, the Adviser assists us in calculating our net asset value, overseeing the preparation and filing of tax returns and the printing and dissemination of reports to our stockholders, and generally overseeing the payment of our expenses and the performance of administrative and professional services rendered to us by others.

Pursuant to the administration agreement, we reimburse the Adviser for expenses necessary to perform services related to our administration and operations, including the Adviser's allocable portion of the compensation and related expenses of certain personnel of Future Standard and KKR Credit providing administrative services to us on behalf of the Adviser. We reimburse the Adviser no less than quarterly for all costs and expenses incurred by the Adviser in performing its obligations and providing personnel and facilities under the administration agreement. The Adviser allocates the cost of such services to us based on factors such as total assets, revenues, time allocations and/or other reasonable metrics. Our board of directors reviews the methodology employed in determining how the expenses are allocated to us and the proposed allocation of administrative expenses among us and certain affiliates of the Adviser. Our board of directors then assesses the reasonableness of such reimbursements for expenses allocated to us based on the breadth, depth and quality of such services as compared to the estimated cost to us of obtaining similar services from third-party service providers known to be available. In addition, our board of directors considers whether any single third-party service provider would be capable of providing all such services at comparable cost and quality. Finally, our board of directors compares the total amount paid to the Adviser for such services as a percentage of our net assets to the same ratio as reported by other comparable BDCs.

We bear all other expenses of our operations and transactions, including all other expenses incurred by the Adviser or us in connection with administering our business, including expenses incurred by the Adviser in performing administrative services for us and administrative personnel paid by the Adviser, to the extent they are not controlling persons of the Adviser or any of its affiliates, subject to the limitations included in the investment advisory agreement and the administration agreement. See Note 4 to our unaudited consolidated financial statements included herein for more information regarding the expenses borne by us and, thus, our stockholders.

In addition, we have contracted with State Street Bank and Trust Company to provide various accounting and administrative services, including, but not limited to, preparing preliminary financial information for review by the Adviser, preparing and monitoring expense budgets, maintaining accounting and corporate books and records, processing trade information provided by us and performing testing with respect to RIC compliance.

^{(1) &}quot;Debt Investments" means investments that pay or are expected to pay a stated interest rate, stated dividend rate or other similar stated return.

- The Weighted Average Annual Yield on Accruing Debt Investments is computed as (i) the sum of (a) the stated annual interest rate, dividend rate or other similar stated return of each accruing Debt Investment, multiplied by its par amount, adjusted to U.S. dollars and for any partial income accrual when necessary, as of the end of the applicable reporting period, plus (b) the annual amortization of the purchase or original issue discount or premium of each accruing Debt Investment; divided by (ii) the total amortized cost of Debt Investments included in the calculated group as of the end of the applicable reporting period. Stated annual interest rate for floating rate Debt Investments assumes the greater of (a) the respective base rate in effect as of June 30, 2025, and (b) the stated base rate floor. The base rate utilized in this calculation may not be indicative of the base rates for specific contracts as of June 30, 2025.
- The Weighted Average Annual Yield on All Debt Investments is computed as (i) the sum of (a) the stated annual interest rate, dividend rate or other similar stated return of each Debt Investment, multiplied by its par amount, adjusted to U.S. dollars and for any partial income accrual when necessary, as of the end of the applicable reporting period, plus (b) the annual amortization of the purchase or original issue discount or premium of each Debt Investment; divided by (ii) the total amortized cost of Debt Investments included in the calculated group as of the end of the applicable reporting period. The base rate utilized in this calculation may not be indicative of the base rates for specific contracts as of June 30, 2025.

For the six months ended June 30, 2025, our total return based on net asset value was (1.33)% and our total return based on market value was 1.95%. For the year ended December 31, 2024, our total return based on net asset value was 8.50% and our total return based on market value was 25.29%. See footnotes 5 and 6 to the table included in Note 11 to our unaudited consolidated financial statements included herein for information regarding the calculation of our total return based on net asset value and total return based on market value, respectively.

Direct Originations

We define Direct Originations as any investment where the Adviser or its affiliates negotiates the terms of the transaction beyond just the price, which, for example, may include negotiating financial covenants, maturity dates or interest rate terms. These Direct Originations include participation in other originated transactions where there may be third parties involved, or a bank acting as an intermediary, for a closely held club, or similar transactions. The following table presents certain selected information regarding our Direct Originations as of June 30, 2025 and December 31, 2024:

Credit Opportunities Partners JV, LLC

COPJV is a joint venture between the Company and South Carolina Retirement Systems Group Trust, or SCRS. COPJV's second amended and restated limited liability company agreement, or the COPJV Agreement, requires the Company and SCRS to provide capital to COPJV of up to \$2,800 in the aggregate where the Company and SCRS would provide 87.5% and 12.5%, respectively, of the committed capital. Pursuant to the terms of the COPJV Agreement, the Company and SCRS each have 50% voting control of COPJV and are required to agree on all investment decisions as well as certain other significant actions for COPJV. COPJV invests its capital in a range of investments, including senior secured loans (both first lien and second lien) to middle market companies, broadly syndicated loans, equity, warrants and other investments. As administrative agent of COPJV, the Company performs certain day-to-day management responsibilities on behalf of COPJV and is entitled to a fee of 0.25% of COPJV's assets under administration, calculated and payable quarterly in arrears. As of June 30, 2025, the Company and SCRS have funded approximately \$2,140.0 to COPJV, of which \$1,872.5 was from the Company.

Below is a summary of COPJV's portfolio as of June 30, 2025 and December 31, 2024:

Portfolio Asset Quality

In addition to various risk management and monitoring tools, the Adviser uses an investment rating system to characterize and monitor the expected level of returns on each investment in our portfolio. The Adviser uses an investment rating scale of 1 to 4. The following is a description of the conditions associated with each investment rating:

| Investment Rating | Summary Description |
|----------------------|---|
| 1 | Performing investment—generally executing in accordance with plan and there are no concerns about the portfolio company's performance or ability to meet covenant requirements. |
| 2 | Performing investment—no concern about repayment of both interest and our cost basis but company's recent performance or trends in the industry require closer monitoring. |
| 3 | Underperforming investment—some loss of interest or dividend possible, but still expecting a positive return on investment. |
| 4 | Underperforming investment—concerns about the recoverability of principal or interest. |

The following table shows the distribution of our investments on the 1 to 4 investment rating scale at fair value as of June 30, 2025 and December 31, 2024:

| | June 30, 2025 | | December 3 | 31, 2024 | |
|-------------------|---------------|----------------------------|----------------|----------------------------|--|
| Investment Rating | Fair Value | Percentage of Portfolio | Fair Value | Percentage of Portfolio | |
| 1 | \$ 9,247 | 68 % | \$ 9,316 | 69 % | |
| 2 | 3,423 | 25 % | 3,454 | 26 % | |
| 3 | 691 | 5 % | 568 | 4 % | |
| 4 | 287 | 2 % | 152 | 1 % | |
| Total | \$ 13,648 | 100 % | \$ 13,490 | 100 % | |

The amount of the portfolio in each grading category may vary substantially from period to period resulting primarily from changes in the composition of the portfolio as a result of new investment, repayment and exit activities. In addition, changes in the grade of investments may be made to reflect our expectation of performance and changes in investment values.

Results of Operations

Comparison of the Three and Six Months Ended June 30, 2025 and June 30, 2024

Revenues

Our investment income for the three and six months ended June 30, 2025 and 2024 was as follows:

| | | Three Months Ended June 30, | | | | | | | Six Months Ended June 30, | | | | |
|--|----|-----------------------------|-------------------------------|----|-------|-------------------------------|----|-------|-------------------------------|----|-------|-------------------------------|--|
| | | 2025 2024 | | | 2025 | | | | 2024 | | | | |
| | A | mount | Percentage of Total Income | A | mount | Percentage of Total Income | A | mount | Percentage of Total Income | A | mount | Percentage of Total Income | |
| Interest income | \$ | 245 | 61.6 % | \$ | 310 | 70.6 % | \$ | 485 | 60.7 % | \$ | 625 | 71.6 % | |
| Paid-in-kind interest income | | 53 | 13.3 % | | 43 | 9.8 % | | 115 | 14.4 % | | 78 | 8.9 % | |
| Fee income | | 9 | 2.2 % | | 18 | 4.1 % | | 26 | 3.3 % | | 35 | 4.0 % | |
| Dividend income | | 91 | 22.9 % | | 68 | 15.5 % | | 172 | 21.6 % | | 135 | 15.5 % | |
| Total investment income ⁽¹⁾ | \$ | 398 | 100.0 % | \$ | 439 | 100.0 % | \$ | 798 | 100.0 % | \$ | 873 | 100.0 % | |

Such revenues represent \$337 and \$383 of cash income earned as well as \$61 and \$56 in non-cash portions relating to accretion of discount and PIK interest for the three months ended June 30, 2025 and 2024, respectively, and \$667 and \$771 of cash income earned as well as \$131 and \$102 in non-cash portions relating to accretion of discount and PIK interest for the six months ended June 30, 2025 and 2024, respectively. Cash flows related to such non-cash revenues may not occur for a number of reporting periods or years after such revenues are recognized.

The level of interest income we receive is generally related to the balance of income-producing investments, multiplied by the weighted average yield of our investments. Fee income is transaction based, and typically consists of amendment and consent fees, prepayment fees, structuring fees and other non-recurring fees. As such, fee income is generally dependent on new direct origination investments and the occurrence of events at existing portfolio companies resulting in such fees.

The decrease in interest and PIK income during the three and six months ended June 30, 2025 compared to the three and six months ended June 30, 2024 is primarily attributable to the Company placing certain assets on non-accrual status during the quarter ended June 30, 2025.

The increase in dividend income during the three and six months ended June 30, 2025 compared to the three and six months ended June 30, 2024 is primarily attributable to higher dividends on certain asset based finance investments and the increase in dividends paid in respect to our investment in COPJV during the three and six months ended June 30, 2025.

Expenses

Our operating expenses for the three and six months ended June 30, 2025 and 2024 were as follows:

| | Three Months Ended June 30, | | | Six Months Ended June 30, | | | | |
|------------------------------------|-----------------------------|-----|----|---------------------------|----|------|----|------|
| | 202 | 25 | 20 | 24 | | 2025 | | 2024 |
| Management fees | \$ | 53 | \$ | 54 | \$ | 105 | \$ | 109 |
| Subordinated income incentive fees | | 36 | | 45 | | 75 | | 88 |
| Administrative services expenses | | 2 | | 2 | | 5 | | 5 |
| Accounting and administrative fees | | 1 | | 1 | | 2 | | 2 |
| Interest expense | | 125 | | 115 | | 238 | | 231 |
| Other expenses | | 8 | | 7 | | 13 | | 11 |
| Total operating expenses | \$ | 225 | \$ | 224 | \$ | 438 | \$ | 446 |

The increase in interest expense was primarily offset by the decrease in subordinated income incentive fees during the three months ended June 30, 2025 compared to the three months ended June 30, 2024. The decrease in expenses during the six months ended June 30, 2025 compared to the six months ended June 30, 2024 can primarily be attributed to a decrease in subordinated income incentive fees as a result of lower investment income as discussed above.

The following table reflects selected expense ratios as a percent of average net assets for the three and six months ended June 30, 2025 and 2024:

| | Three Months Er | nded June 30, | Six Months Ended June 30, | | |
|---|-----------------|---------------|---------------------------|--------|--|
| | 2025 | 2024 | 2025 | 2024 | |
| Ratio of operating expenses to average net assets | 3.43 % | 3.26 % | 6.62 % | 6.46 % | |
| Ratio of incentive fees, interest expense and excise taxes to average net assets ⁽¹⁾ | 2.45 % | 2.33 % | 4.73 % | 4.62 % | |
| Ratio of net operating expenses, excluding certain expenses, to average net assets | 0.98 % | 0.93 % | 1.89 % | 1.84 % | |

⁽¹⁾ Ratio data may be rounded in order to recompute the ending ratio of net operating expenses to average net assets or net operating expenses, excluding certain expenses, to average net assets.

Incentive fees and interest expense, among other things, may increase or decrease our expense ratios relative to comparative periods depending on portfolio performance and changes in amounts outstanding under our financing arrangements and benchmark interest rates such as SOFR, among other factors.

Net Investment Income

Our net investment income totaled \$173 (\$0.62 per share) and \$215 (\$0.77 per share) for the three months ended June 30, 2025 and 2024, respectively. Our net investment income totaled \$360 (\$1.29 per share) and \$427 (\$1.53 per share) for the six months ended June 30, 2025 and 2024, respectively.

The decrease in net investment income during the three and six months ended June 30, 2025 compared to the three and six months ended June 30, 2024 can primarily be attributed to lower investment income during the three and six months ended June 30, 2025 as discussed above.

Net Realized Gains or Losses

Our net realized gains (losses) on investments, foreign currency forward contracts and foreign currency for the three and six months ended June 30, 2025 and 2024 were as follows:

| | Three Months Ended June 30, | | | Six Months Ended June 30, | | | | |
|--|-----------------------------|-------|----|---------------------------|----|-------|----|-------|
| | | 2025 | | 2024 | | 2025 | | 2024 |
| Net realized gain (loss) on investments ⁽¹⁾ | \$ | (135) | \$ | (64) | \$ | (153) | \$ | (307) |
| Net realized gain (loss) on foreign currency forward contracts | | (3) | | 19 | | (3) | | 19 |
| Net realized gain (loss) on foreign currency | | (6) | | 0 | | (5) | | (3) |
| Total net realized gain (loss) | \$ | (144) | \$ | (45) | \$ | (161) | \$ | (291) |

⁽¹⁾ We sold investments and received principal repayments, respectively, of \$498 and \$858 during the three months ended June 30, 2025 and \$11 and \$1,325 during the three months ended June 30, 2024. We sold investments and received principal repayments, respectively, of \$1,379 and \$1,384 during the six months ended June 30, 2025 and \$1,335 and \$1,856 during the six months ended June 30, 2024.

Net Change in Unrealized Appreciation (Depreciation)

Our net change in unrealized appreciation (depreciation) on investments, foreign forward currency forward contracts and unrealized gain (loss) on foreign currency for the three and six months ended June 30, 2025 and 2024 were as follows:

| | Three Months Ended June 30, | | | Six Months Ended June 30, | | | June 30, | |
|--|-----------------------------|-------|----|---------------------------|----|-------|----------|------|
| | | 2025 | | 2024 | | 2025 | | 2024 |
| Net change in unrealized appreciation (depreciation) on investments | \$ | (155) | \$ | (48) | \$ | (169) | \$ | 138 |
| Net change in unrealized appreciation (depreciation) on foreign currency forward contracts | | (10) | | (21) | | (20) | | (13) |
| Net change in unrealized gain (loss) on foreign currency | | (59) | | 4 | | (85) | | 17 |
| Total net change in unrealized appreciation (depreciation) | \$ | (224) | \$ | (65) | \$ | (274) | \$ | 142 |

The net change in unrealized appreciation (depreciation) on investments during the three and six months ended June 30, 2025 was driven primarily by reduced valuations of certain portfolio companies during the year, including Production Resources Group, 48Forty Solutions and Kellermeyer Bergensons Services LLC. The net change in unrealized appreciation (depreciation) during the three and six months ended June 30, 2024 was driven primarily by depreciation on several specific assets in the portfolio along with the conversion of unrealized depreciation to realized losses during the quarter.

Provision for Taxes on Realized Gains on Investments

During the three and six months ended June 30, 2025 and 2024, we recorded a provision for taxes on realized gains with respect to one of our equity investments of \$(11) and \$0, respectively.

Realized Losses from Extinguishment of Debt

During the three and six months ended June 30, 2025 and 2024, we recorded a net realized loss from the extinguishment of debt of \$(3) and \$0, respectively. See Note 9 to our unaudited consolidated financial statements included herein for additional information regarding our financing arrangements.

Net Increase (Decrease) in Net Assets Resulting from Operations

For the three months ended June 30, 2025, the net decrease in net assets resulting from operations was \$(209) (\$(0.75) per share) compared to a net increase in net assets resulting from operations of \$105 (\$0.37 per share) during the three months ended June 30, 2024.

For the six months ended June 30, 2025, the net decrease in net assets resulting from operations was \$(89) (\$(0.32) per share) compared to a net increase in net assets resulting from operations of \$278 (\$0.99 per share) during the six months ended June 30, 2024.

Financial Condition, Liquidity and Capital Resources

Overview

As of June 30, 2025, we had \$312 in cash, cash equivalents and foreign currency, which we or our wholly-owned financing subsidiaries held in custodial accounts, and \$2,425 in borrowings available under our financing arrangements, subject to borrowing base and other limitations. As of June 30, 2025, we also had broadly syndicated investments and opportunistic investments that could be sold to create additional liquidity. As of June 30, 2025, we had unfunded debt investments with aggregate unfunded commitments of \$1,730.1, unfunded equity/other commitments of \$369.7 and unfunded commitments of \$577.5 to COPJV. We maintain sufficient cash on hand, available borrowings and liquid securities to fund such unfunded commitments should the need arise.

We currently generate cash primarily from cash flows from fees, interest and dividends earned from our investments, as well as principal repayments and proceeds from sales of our investments. To seek to enhance our returns, we also employ leverage as market conditions permit and at the discretion of the Adviser, but in no event will leverage employed exceed the maximum amount permitted by the 1940 Act. Prior to June 14, 2019, in accordance with the 1940 Act, we were allowed to borrow amounts such that our asset coverage, calculated pursuant to the 1940 Act, was at least 200% after such borrowing. Effective June 15, 2019, our asset coverage requirement applicable to senior securities was reduced from 200% to 150%. As of June 30, 2025, the aggregate amount outstanding of the senior securities issued by us was \$8.0 billion. As of June 30, 2025, our asset coverage was 177%. See "—Financing Arrangements."

Prior to investing in securities of portfolio companies, we invest the cash received from fees, interest and dividends earned from our investments and principal repayments and proceeds from sales of our investments primarily in cash, cash equivalents, including

money market funds, U.S. government securities, repurchase agreements and high-quality debt instruments maturing in one year or less from the time of investment, consistent with our BDC election and our election to be taxed as a RIC.

In addition to the spread over the benchmark rate, a credit spread adjustment of 0.26161% is applicable to Class A-1R, Class A-2R and Class B-1R notes outstanding.
- (10) As of June 30, 2025, there were \$160.0 of Class A-1 notes outstanding at SOFR+1.48%, \$100.0 of Class A-1L notes outstanding at SOFR+1.48%, \$30.0 of Class A-1W notes outstanding at SOFR+1.48%, \$20.0 of Class A-2L notes outstanding at SOFR+1.60%, \$30.0 of Class B notes outstanding at SOFR+1.75% and \$40.0 of Class C notes outstanding at SOFR+2.15%.

See Note 9 to our unaudited consolidated financial statements included herein for additional information regarding our financing arrangements.

Equity Issuances

We may, from time to time, issue and sell shares of our common stock through public or at-the-market offerings. On May 9, 2025, we entered into the Equity Distribution Agreements with each of the Sales Agents. During the three and six months ended June 30, 2025, the Company did not issue or sell shares of its common stock under the Equity Distribution Agreements. For further details

regarding the Equity Distribution Agreements, see Note 3 ""At the Market" Offering" to our consolidated financial statements included in this report.

RIC Status and Distributions

We have elected to be subject to tax as a RIC under Subchapter M of the Code. In order to qualify for RIC tax treatment, we must, among other things, make distributions of an amount at least equal to 90% of our investment company taxable income, determined without regard to any deduction for distributions paid, each tax year. As long as the distributions are declared by the later of the fifteenth day of the tenth month following the close of a tax year or the due date of the tax return for such tax year, including extensions, distributions paid up to twelve months after the current tax year can be carried back to the prior tax year for determining the distributions paid in such tax year. We intend to make sufficient distributions to our stockholders to qualify for and maintain our RIC tax status each tax year. We are also subject to a 4% nondeductible federal excise tax on certain undistributed income unless we make distributions in a timely manner to our stockholders generally of an amount at least equal to the sum of (1) 98% of our net ordinary income (taking into account certain deferrals and elections) for the calendar year, (2) 98.2% of our capital gain net income, which is the excess of capital gains in excess of capital losses, or "capital gain net income" (adjusted for certain ordinary losses), for the one-year period ending October 31 of that calendar year and (3) any net ordinary income and capital gain net income for the preceding years that were not distributed during such years and on which we paid no U.S. federal income tax. Any distribution declared by us during October, November or December of any calendar year, payable to stockholders of record on a specified date in such a month and actually paid during January of the following calendar year, will be treated as if it had been paid by us, as well as received by our stockholders, on December 31 of the calendar year in which the distribution was declared. We can offer no assurance that we will achieve results that will permit us to pay any cash distributions. If we issue senior securities, we will be prohibited from making distributions if doing so causes us to fail to maintain the asset coverage ratios stipulated by the 1940 Act or if distributions are limited by the terms of any of our borrowings.

Subject to applicable legal restrictions and the sole discretion of our board of directors, we intend to authorize, declare and pay regular cash distributions on a quarterly basis. We will calculate each stockholder's specific distribution amount for the period using record and declaration dates and each stockholder's distributions will begin to accrue on the date that shares of our common stock are issued to such stockholder. From time to time, we may also pay special interim distributions in the form of cash or shares of our common stock at the discretion of our board of directors.

During certain periods, our distributions may exceed our earnings. As a result, it is possible that a portion of the distributions we make may represent a return of capital. A return of capital generally is a return of a stockholder's investment rather than a return of earnings or gains derived from our investment activities. Each year a statement on Form 1099-DIV identifying the sources of the distributions will be mailed to our stockholders. No portion of the distributions paid during the six months ended June 30, 2025 or 2024 represented a return of capital.

We intend to make our regular distributions in the form of cash, out of assets legally available for distribution, except for those stockholders who receive their distributions in the form of shares of our common stock under the DRP. Any distributions reinvested under the plan will nevertheless remain taxable to a U.S. stockholder.

The following tables reflect the distributions per share that we have declared on our common stock during the six months ended June 30, 2025 and 2024:

Recent Developments

Distribution

On July 31, 2025, our board of directors declared a regular quarterly distribution of \$0.70 per share consisting of a \$0.64 base distribution and a \$0.06 supplemental distribution, which will be paid on or about October 2, 2025 to stockholders of record as of the close of business on September 17, 2025. The timing and amount of any future distributions to stockholders are subject to applicable legal restrictions and the sole discretion of our board of directors.

Senior Secured Revolving Credit Facility

On July 16, 2025, the Company entered into a third amended and restated senior secured revolving credit agreement, or the Third Amended and Restated Senior Secured Revolving Credit Facility, with the Company, as borrower, JPMorgan Chase Bank, N.A., or JPMorgan, as administrative agent, ING Capital LLC, or ING, as collateral agent, and the lenders party thereto, which amended and restated the second amended and restated senior secured revolving credit facility originally entered into on December 23, 2020, which was subsequently amended by Amendment No. 1 on September 27, 2021, by Amendment No. 2 on May 17, 2022, by Amendment No. 3 on October 31, 2023, and by Amendment No. 4 on June 26, 2024. The Third Amended and Restated Senior Secured Revolving Credit Facility provides for borrowings in U.S. dollars and certain agreed upon foreign currencies in an initial aggregate amount of up to \$4,700 with an option for the Company to request, at one or more times, that existing and/or new lenders, at their election, provide up to \$2,350 of additional commitments. The Third Amended and Restated Senior Secured Revolving Credit Facility provides for the issuance of letters of credit in an initial aggregate face amount of up to \$240, with a sublimit available for the Company to request the issuance of letters of credit in an aggregate face amount of up to \$400, subject to increase or reduction from time to time pursuant to the terms of the Third Amended and Restated Senior Secured Revolving Credit Facility. Capitalized terms used herein shall have the meanings specified in the Third Amended and Restated Senior Secured Revolving Credit Facility.

Availability under the Third Amended and Restated Senior Secured Revolving Credit Facility will terminate on July 16, 2029, or the Commitment Termination Date, and the outstanding loans under the Third Amended and Restated Senior Secured Revolving Credit Facility will mature on July 16, 2030. The Third Amended and Restated Senior Secured Revolving Credit Facility also requires mandatory prepayment of interest and principal upon certain events during the term-out period commencing on the Commitment Termination Date

Borrowings under the Third Amended and Restated Senior Secured Revolving Credit Facility are subject to compliance with a borrowing base test. With respect to lenders other than non-extending lenders, interest under the Third Amended and Restated Senior Secured Revolving Credit Facility for (i) ABR Loans, (A) if the value of the gross borrowing base is equal to or greater than 1.60 times the aggregate amount of certain outstanding indebtedness of the Company, or the Combined Debt Amount, is payable at an "alternate base rate" (which is the greatest of (a) the prime rate as publicly announced by the Wall Street Journal, (b) the sum of (x) the greater of (I) the federal funds effective rate and (II) the overnight bank funding rate plus (y) 0.5%, and (c) the one month Adjusted Term SOFR Rate plus 1%), plus 0.650% per annum, and (B) if the value of the gross borrowing base is less than 1.60 times the Combined Debt Amount, the alternate base rate plus 0.775% per annum; and (ii) Term Benchmark Loans or RFR Loans (A) if the value of the gross borrowing base is less than 1.60 times the Combined Debt Amount, is payable at a rate equal to the applicable benchmark rate plus 1.650% per annum, and (B) if the value of the gross borrowing base is less than 1.60 times the Combined Debt Amount, is payable at a rate equal to or greater than 1.60 times the aggregate amount of certain outstanding indebtedness of the Company, or the Combined Debt Amount, is payable at the alternative base rate, plus 0.750% per annum, and (B) if the value of the gross borrowing base is less than 1.60 times the Combined Debt Amount, the alternate base rate plus 0.875% per annum; and (ii)

Term Benchmark Loans or RFR Loans (A) if the value of the gross borrowing base is equal to or greater than 1.60 times the Combined Debt Amount, is payable at a rate equal to the applicable benchmark rate plus 1.750% per annum, and (B) if the value of the gross borrowing base is less than 1.60 times the Combined Debt Amount, is payable at a rate equal to the applicable benchmark rate plus 1.875% per annum. The Company will pay a commitment fee, with respect to lenders other than non-extending lenders, of 0.350% per annum and, with respect to non-extending lenders, and 0.375% per annum, on the daily unused portion of its sublimit under the Third Amended and Restated Senior Secured Revolving Credit Facility during the revolving period. The Company also will be required to pay letter of credit participation fees and a fronting fee on the average daily amount of any lender's exposure with respect to any letters of credit issued at the request of the Company under the Third Amended and Restated Senior Secured Revolving Credit Facility.

In connection with the Third Amended and Restated Senior Secured Revolving Credit Facility, the Company has made certain representations and warranties and must comply with various covenants and reporting requirements customary for facilities of this type. In addition, the Company must comply with the following financial covenants: (a) the Company must maintain a minimum shareholders' equity, measured as of each fiscal quarter end; and (b) the Company must maintain at all times a 150% asset coverage ratio (or, if greater, the statutory requirement then applicable to the Company).

The Third Amended and Restated Senior Secured Revolving Credit Facility contains events of default customary for facilities of this type. Upon the occurrence of an event of default, JPMorgan, at the instruction of the lenders, may terminate the commitments and declare the outstanding advances and all other obligations under the Third Amended and Restated Senior Secured Revolving Credit Facility immediately due and payable.

The Company's obligations under the Third Amended and Restated Senior Secured Revolving Credit Facility are guaranteed by certain of the Company's subsidiaries. The Company's obligations under the Third Amended and Restated Senior Secured Revolving Credit Facility are secured by a first priority security interest in substantially all of the assets of the Company and certain of the Company's subsidiaries thereunder.

Critical Accounting Policies and Estimates

Our financial statements are prepared in conformity with GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Management has utilized available information, including our past history, industry standards and the current economic environment, among other factors, in forming the estimates and judgments, giving due consideration to materiality. Actual results may differ from these estimates. In addition, other companies may utilize different estimates, which may impact the comparability of our results of operations to those of companies in similar businesses. Understanding our accounting policies and the extent to which we use management judgment and estimates in applying these policies is integral to understanding our financial statements. We describe our most significant accounting policies in "Note 2. Summary of Significant Accounting Policies" in our consolidated financial statements. Critical accounting policies are those that require the application of management's most difficult, subjective or complex judgments, often because of the need to make estimates about the effect of matters that are inherently uncertain and that may change in subsequent periods. We evaluate our critical accounting estimates and judgments required by our policies on an ongoing basis and update them as necessary based on changing conditions. We have identified one of our accounting policies, valuation of portfolio investments, specifically the valuation of Level 3 investments, as critical because it involves significant judgments and assumptions about highly complex and inherently uncertain matters, and the use of reasonably different estimates and assumptions could have a material impact on our reported results of operations or financial condition. As we execute our operating plans, we will describe additional critical accounting policies in the notes to our future financial statements in addition to those discussed below.

Valuation of Portfolio Investments

Our board of directors is responsible for overseeing the valuation of our portfolio investments at fair value as determined in good faith pursuant to the Adviser's valuation policy. As permitted by Rule 2a-5 of the 1940 Act, our board of directors has designated the Adviser as our valuation designee with day-to-day responsibility for implementing the portfolio valuation process set forth in the Adviser's valuation policy.

Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosure*, or ASC Topic 820, issued by the FASB clarifies the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. ASC Topic 820 defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets for identical securities; Level 2, which includes inputs such as quoted prices for similar securities in active markets and quoted prices for identical securities where there is little or no activity in the market; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The Adviser determines the fair value of our investment portfolio each quarter. Securities that are publicly-traded with readily available market prices will be valued at the reported closing price on the valuation date. Securities that are not publicly-traded with readily available market prices will be valued at fair value as determined in good faith by the Adviser. In connection with that determination, the Adviser will prepare portfolio company valuations which are based on relevant inputs, including, but not limited to, indicative dealer quotes, values of like securities, recent portfolio company financial statements and forecasts, and valuations prepared by independent third-party pricing and valuation services.

With respect to investments for which market quotations are not readily available, we undertake a multi-step valuation process each quarter, as described below:

- our quarterly fair valuation process begins by the Adviser facilitating the delivery of updated quarterly financial and other information relating to each investment to an independent third-party pricing or valuation service;
- the independent third-party pricing or valuation service then reviews and analyzes the information, along with relevant market and economic data, and determines proposed valuations for each portfolio company or investment according to the valuation methodologies in the Adviser's valuation policy and communicates the information to the Adviser in the form of a valuation range for Level 3 assets;
- the Adviser then reviews the preliminary valuation information for each portfolio company or investment and provides feedback about the accuracy, completeness and timeliness of the valuation-related inputs considered by the independent third-party pricing or valuation service and any suggested revisions thereto prior to the independent third-party pricing or valuation service finalizing its valuation range;
- the Adviser then provides the valuation committee with its valuation determinations and valuation-related information for each portfolio company or investment, along with any applicable supporting materials; and other information that is relevant to the fair valuation process as required by the Adviser's board reporting obligations;
- the valuation committee meets with the Adviser to receive the relevant quarterly reporting from the Adviser and to discuss any questions from the valuation committee in connection with the valuation committee's role in overseeing the fair valuation process; and
- following the completion of its fair value oversight activities, the valuation committee (with the assistance of the Adviser) provides our board of directors with a report regarding the quarterly valuation process.

In circumstances where the Adviser deems appropriate, the Adviser's internal valuation team values certain investments. When performing the internal valuations, the Adviser utilizes similar valuation techniques as an independent third-party pricing service would use. Such valuations are approved by an internal valuation committee of the Adviser, as well as the valuation committee of the board of directors, as described above.

Determination of fair value involves subjective judgments and estimates. Accordingly, the notes to our consolidated financial statements refer to the uncertainty with respect to the possible effect of such valuations and any change in such valuations on our consolidated financial statements. In making its determination of fair value, the Adviser may use any independent third-party pricing or valuation services for which it has performed the appropriate level of due diligence. However, the Adviser is not required to determine fair value in accordance with the valuation provided by any single source, and may use any relevant data, including information sourced by the Adviser or provided by any independent third-party valuation or pricing service that the Adviser deems to be reliable in determining fair value under the circumstances. Below is a description of factors that the Adviser and any independent third-party valuation services may consider when determining the fair value of our investments.

The valuation methods utilized for each portfolio company may vary depending on industry and company-specific considerations. Typically, the first step is to make an assessment as to the enterprise value of the portfolio company's business in order to establish whether the portfolio company's enterprise value is greater than the amount of its debt as of the valuation date. This analysis helps to determine a risk profile for the applicable portfolio company and its related investments, and the appropriate valuation methodology to utilize as part of the security valuation analysis. The enterprise valuation may be determined using a market or income approach.

Valuation of fixed income investments, such as loans and debt securities, depends upon a number of factors, including prevailing interest rates for like securities, expected volatility in future interest rates, call features, put features and other relevant terms of the debt. For investments without readily available market prices, the Adviser may incorporate these factors into discounted cash flow models to arrive at fair value. Various methods may be used to determine the appropriate discount rate in a discounted cash flow model.

Other factors that may be considered include the borrower's ability to adequately service its debt, the fair market value of the borrower in relation to the face amount of its outstanding debt and the quality of collateral securing the debt investments.

For convertible debt securities, fair value generally approximates the fair value of the debt plus the fair value of an option to purchase the underlying security (i.e., the security into which the debt may convert) at the conversion price. To value such an option, a standard option pricing model may be used.

Our equity interests in portfolio companies for which there is no liquid public market are valued at fair value. Generally, the value of our equity interests in public companies for which market quotations are readily available is based upon the most recent closing public market price.

When we receive warrants or other equity securities at nominal or no additional cost in connection with an investment in a debt security, the cost basis in the investment will be allocated between the debt securities and any such warrants or other equity securities received at the time of origination. The Adviser subsequently values these warrants or other equity securities received at their fair value.

See Note 8 to our unaudited consolidated financial statements included herein for additional information regarding the fair value of our financial instruments.

Other Contractual Obligations

We have entered into agreements with the Adviser to provide us with investment advisory and administrative services. Payments for investment advisory services under the investment advisory agreement are equal to (a) an annual base management fee based on the average weekly value of our gross assets (excluding cash and cash equivalents) and (b) an incentive fee based on our performance. The Adviser is reimbursed for administrative expenses incurred on our behalf. See Note 4 to our unaudited consolidated financial statements included herein for a discussion of these agreements and for the amount of fees and expenses accrued under these agreements during the six months ended June 30, 2025 and 2024.

Off-Balance Sheet Arrangements

We currently have no off-balance sheet arrangements, including any risk management of commodity pricing or other hedging practices.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Interest Rate Risk

We are subject to financial market risks, including changes in interest rates. As of June 30, 2025, 66.0% of our portfolio investments (based on fair value) were debt investments paying variable interest rates and 8.1% were debt investments paying fixed interest rates while 17.5% were other income producing investments, 5.4% consisted of non-income producing investments, and the remaining 3.0% consisted of investments on non-accrual status. A rise in the general level of interest rates can be expected to lead to higher interest rates applicable to any variable rate investments we hold and to declines in the value of any fixed rate investments we hold. However, many of our variable rate investments provide for an interest rate floor, which may prevent our interest income from increasing until benchmark interest rates increase beyond a threshold amount. To the extent that a substantial portion of our investments may be in variable rate investments, an increase in interest rates beyond this threshold would make it easier for us to meet or exceed the hurdle rate applicable to the subordinated incentive fee on income, and may result in a substantial increase in our net investment income and to the amount of incentive fees payable to the Adviser with respect to our increased pre-incentive fee net investment income. Changes in the general level of interest rates can affect our net interest income. Changes in interest rates can also affect, among other things, our ability to acquire leveraged loans, high yield bonds and other debt investments and the value of our investment portfolio.

Pursuant to the terms of the Ambler Credit Facility, Callowhill Credit Facility, CCT Tokyo Funding Credit Facility, Darby Creek Credit Facility, Meadowbrook Run Credit Facility, Senior Secured Revolving Credit Facility, the CLO-1 Notes and the CLO-2 Notes, we borrow at a floating rate based on a benchmark interest rate. Under the indentures governing the 3.400% Notes, the 2.625% Notes, the 3.250% Notes, the 3.125% Notes, the 7.875% Notes, the 6.875% Notes and the 6.125% Notes, we pay interest to the holders of such notes at a fixed rate. To the extent that any present or future credit facilities or other financing arrangements that we or any of our subsidiaries enter into are based on a floating interest rate, we will be subject to risks relating to changes in market interest rates. In periods of rising interest rates when we or our subsidiaries have such debt outstanding, or financing arrangements in effect, our interest expense would increase, which could reduce our net investment income, especially to the extent we hold fixed rate investments. To hedge the risks associated with a changing interest rate environment, the Company utilizes interest rate swap strategies. For more information on the Company's swap strategies, please see Note 2 and Note 7 to our unaudited consolidated financial statements included herein.

The following table shows the effect over a twelve month period of changes in interest rates on our interest income, interest expense and net interest income, assuming no changes in the composition of our investment portfolio, including the accrual status of our investments, and our financing arrangements in effect as of June 30, 2025 (dollar amounts are presented in millions):

⁽¹⁾ Assumes no defaults or prepayments by portfolio companies over the next twelve months.

We expect that our long-term investments will be financed primarily with equity and debt. If deemed prudent, we may use interest rate risk management techniques in an effort to minimize our exposure to interest rate fluctuations. These techniques may include various interest rate hedging activities to the extent permitted by the 1940 Act. Adverse developments resulting from changes in interest rates or hedging transactions could have a material adverse effect on our business, financial condition and results of operations.

Foreign Currency Risk

From time to time, we may make investments that are denominated in a foreign currency that are subject to the effects of exchange rate movements between the foreign currency of each such investment and the U.S. dollar, which may affect future fair values and cash flows, as well as amounts translated into U.S. dollars for inclusion in our consolidated financial statements.

The table below presents the effect that a 10% immediate, unfavorable change in the foreign currency exchange rates (i.e. strengthening of the U.S. dollar) would have on the fair value of our investments denominated in foreign currencies as of June 30, 2025, by foreign currency, all other valuation assumptions remaining constant. In addition, the table below presents the par value of our investments denominated in foreign currencies and the notional amount of foreign currency forward contracts in local currency in place as of June 30, 2025 to hedge against foreign currency risks.

⁽¹⁾ Excludes effect, if any, of any foreign currency hedges.

As illustrated in the table above, we use derivative instruments from time to time, including foreign currency forward contracts and cross currency swaps, to manage the impact of fluctuations in foreign currency exchange rates. In addition, we have the ability to borrow in foreign currencies under our Senior Secured Revolving Credit Facility, which provides a natural hedge with regard to changes in exchange rates between the foreign currencies and U.S. dollar and reduces our exposure to foreign exchange rate differences. We are typically a net receiver of these foreign currencies as related for our international investment positions, and, as a

result, our investments denominated in foreign currencies, to the extent not hedged, benefit from a weaker U.S. dollar and are adversely affected by a stronger U.S. dollar.

As of June 30, 2025, the net contractual amount of our foreign currency forward contracts totaled \$209.4, all of which related to hedging of our foreign currency denominated debt investments. As of June 30, 2025, we had outstanding borrowings denominated in foreign currencies of €467, £288 and AUD36 under our Senior Secured Revolving Credit Facility.

In addition, we may have risk regarding portfolio valuation. See "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates—Valuation of Portfolio Investments."

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15(b) under the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2025.

Based on the foregoing, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that we would meet our disclosure obligations.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act) that occurred during the three month period ended June 30, 2025 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

We are not currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us. From time to time, we may be party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of any legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material adverse effect upon our financial condition or results of operations.

Item 1A. Risk Factors.

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the risk factors that appeared under Item 1A. "Risk Factors" in our most recent Annual Report on Form 10-K. There are no material changes from the risk factors included within our most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Affiliated Purchaser Programs

As previously disclosed, certain affiliates of the owners of the Adviser committed \$100 to a \$350 investment vehicle that may invest from time to time in shares of the Company.

In August 2023, that investment vehicle entered into a written trading plan with a third-party broker in accordance with Rule 10b5-1 and Rule 10b-18 promulgated under the Exchange Act, or the August 2023 Affiliated Seller Program, to facilitate the sale of shares of our common stock pursuant to the terms and conditions of such plan. The August 2023 Affiliated Seller Program provided for the sale of up to 16.4 million shares of our common stock, subject to the limitations provided therein.

In March 2024, that investment vehicle entered into a written trading plan with a third-party broker in accordance with Rule 10b5-1 and Rule 10b-18 promulgated under the Exchange Act, or the March 2024 Affiliated Seller Program, to facilitate the sale of shares of our common stock pursuant to the terms and conditions of such plan. The March 2024 Affiliated Seller Program provided for the sale of up to 3.8 million shares of our common stock, subject to the limitations provided therein. The March 2024 Affiliated Seller Program has concluded since the aggregate sale amount under the plan has been expended.

The table below provides information concerning purchases of our shares of common stock by or on behalf of the Company or any "affiliated purchaser," as defined by Rule 10b-18(a)(3) promulgated under the Exchange Act during the quarterly period ended June 30, 2025. Dollar amounts in the table below and the related notes are presented in millions, except for share and per share amounts.
